Ginnie Mae MBS Loan-Level Disclosure Definitions

Version 1.3

Section 1 - Definition of Terms

Definition of Terms

Term	Definition
Mortgage or Mortgage Loan	A mortgage or mortgage loan is a loan obtained by a borrower to purchase a new or existing home or to refinance an existing mortgage loan. For the mortgage loan, the home or property involved is the collateral securing the loan. In this discussion, the mortgage loan is referred to simply as “the loan”.
Primary Mortgage Market	In the primary mortgage market, mortgage loans are originated. A mortgage is originated by borrowers working directly with lenders, or maybe with the assistance of a mortgage broker. There are several different types of mortgage lending institutions: banks, savings and loans, credit unions, and mortgage finance companies.
Secondary Mortgage Market	A market comprising investors who buy large numbers of mortgages from the primary lenders and resell them to other investors.
MBS	In the context of this discussion, a security is a financial instrument sold or traded as an investment. MBS stands for Mortgage-Backed Security. A mortgage-backed security is a security which is considered “asset-based” because the security is backed by a mortgage or collection of mortgages. Typically, holders of mortgage-backed securities receive periodic payments based on the regular scheduled payments made by the borrowers for the underlying mortgage loans.
Ginnie Mae	Government National Mortgage Association (GNMA or Ginnie Mae) is a government organization that participates in the secondary mortgage market, guaranteeing securities based on pools of loans made under the Federal government programs FHA, VA, PIH, and RD. The four agencies FHA, VA, PIH, and RD are defined below.

Ginnie Mae MBS Loan-Level Disclosure Definitions

Version 1.3

Definition of Terms	
Ginnie Mae MBS	A Ginnie Mae MBS is a mortgage-backed security issued by the Government National Mortgage Association. The Ginnie Mae MBS securities are the only MBS products which are backed by the full faith and credit of the United States government. This makes the Ginnie Mae MBS unique among the MBS products in the secondary mortgage market.
Pool	A collection of mortgage loans, which is the basis for a mortgage-backed security.
Multi-Issuer Pool	For some loan pools, the pool is issued by only one issuer. This is referred to as a single-issuer pool. Other pools are made up of packages of loans where each loan package may have been issued by a different issuer. This is referred to as a multi-issuer pool.
Loan	An individual mortgage loan which is part of a loan pool. Disclosure statistics are provided at the pool level and many of these statistics are aggregated from data at the loan-level.
Issuer	Issuer refers to an entity which issues and is obligated to pay amounts due on securities. For each Issuer, there is a unique four digit issuer number and a name of the issuing institution.
Agency	All of the mortgage loans underlying Ginnie Mae MBS pools of loans are made under one of the four the Federal government programs FHA, VA, PIH, or RD. Each of these agencies has one or more programs to help provide opportunities for home ownership. Each of these agencies is involved in the underwriting of the original loans made under the agency's respective programs. Each of these agencies provides data to Ginnie Mae on a continuing basis for the loans made under the given agency's programs. These four agencies are defined below.
FHA	FHA or Federal Housing Administration is part of the US Department of Housing and Urban Development (HUD). FHA has many programs to support homeownership. FHA is the largest mortgage insurer in the world and also regulates housing industry business.

Ginnie Mae MBS Loan-Level Disclosure Definitions

Version 1.3

Definition of Terms	
VA	VA stands for Veterans Administration. The VA loan program is part of the US Department of Veterans Affairs. The Department of Veterans Affairs is the federal agency responsible for the VA loan guaranty program as well as other services for eligible veterans. In general, qualified veterans can apply for home loans with no down payment and a funding fee of 1 percent of the loan amount.
PIH	PIH stands for Public and Indian Housing. PIH is part of the US Department of Housing and Urban Development (HUD). The role of the Office of Public and Indian Housing is to ensure safe, decent, and affordable housing; create opportunities for residents' self-sufficiency and economic independence; and assure fiscal integrity by all program participants.
RD	RD stands for the Office of Rural Development, which is part of the US Department of Agriculture. RD has programs for homeownership in rural areas and also programs to support construction of community facilities in rural areas.
Disclosure	In the United States, publicly-traded securities are regulated by the Securities and Exchange Commission (SEC). The SEC requires that for publicly-traded securities disclosure information must be provided.
Purpose of Disclosure	Disclosure information is used by investors, potential investors, and investment analysts to help evaluate the potential investment value and risk involved in a given security, such as a mortgage-backed security (MBS).
Disclosure Data Sources	For Ginnie Mae mortgage-backed securities, the sources of the information provided in Loan-Level Disclosure are: the issuer of the given security and the agencies helping underwrite the underlying mortgages: FHA, VA, PIH, and RD.

Ginnie Mae MBS Loan-Level Disclosure Definitions

Version 1.3

Definition of Terms	
Types of Data Disclosed	Some disclosure data concerns the loan pool itself, such as the date the pool was issued, the pool type, and the Issuer number of the loan pool's Issuer. The various data items are listed and described in detail for each record type produced by disclosure. These details follow in the section called "Record Types and Data Items Disclosed."
Frequency of Disclosure	Comprehensive MBS Loan-Level disclosure is produced on a monthly basis.
Data Item or Data Field	A data item or "data field" is one specific piece of information within a disclosure record. Examples are "Pool Issue Date" in the Pool Header Record and "Loan Purpose" for a given loan in the loan-level records.
Data Condition	Certain variables in the data may have a set of discrete possibilities, somewhat like multiple choice. An example would be "Refinance Type." In Ginnie Mae MBS Loan-Level Disclosure, the Refinance Type for a given loan may be "1 - Not Streamlined, Not Cash Out," "2 - Cash Out," "3 - Streamlined," or "Refinance Type Not Available." Each of these is considered a distinct data condition.

Section 2 - Description of Statistics Disclosed

Description of Statistics Disclosed

The following statistic is aggregated for disclosure at the file level in the Overall File Trailer record.

Data Statistic	Description	Formula
Loan Count for the File	Number of Loans within the entire file.	Sum of the Loans in the file.
Pool Count for the File	Number of Pools within the entire file.	Sum of the Pools in the file.
Records Count for the File	Number of Records within the entire file.	Sum of the Records in the file (ie. Overall File Header Record, Pool Header Records, Loan Records, Pool Trailer Records, and Overall File Trailer Record).

The following statistic is gathered at the loan-level and aggregated for disclosure at the pool level in the Pool Trailer record.

Data Statistic	Description	Formula
Loan Count for the Pool	Number of Loans within the pool.	Sum of the Loans in a Pool

Ginnie Mae MBS Loan-Level Disclosure Definitions Version 1.3

Section 3 - Record Types and Data Items Disclosed

Record Types generated by MBS Loan-Level Disclosure:

- Overall File Header Record (Type H)
- Pool Header Record (Type P)
- Loan-Level Record (Type L)
- Pool Trailer Record (Type T)
- Overall File Trailer Record (Type Z)

Every MBS Loan-Level disclosure file has the following file header information at the beginning of the file.

Overall File Header Record (Type H) Layout

Data Item	Description
Record Type	A one-character identifier for the record type. Value is "H."
File Name	A 22-character value of the format "GNMA_MBS_LL_XXX_CCYYMM" where XXX is NEW for New Issuance, MNI for Monthly New Issuance, and MON for Monthly Loan Level, and CCYYMM is the same value as "As-of Date." The Monthly Loan Level file includes all active MBS Loan Level data, including New Issuance data and current month liquidations.
File Number	A number from 001 to 002 indicating which segment of split file this file covers.
File Correction Flag	A one-character value "Y" (Correction) or "N" (Original) that indicates if this file is a correction of an earlier version of the same file.
As-of Date	A 6-digit field (CCYYMM format) that represents the Reporting Period of the data in the file.
Date File Generated	An 8-digit field (CCYYMMDD format) that represents the date the file was created.

Ginnie Mae MBS Loan-Level Disclosure Definitions Version 1.3

Pool Header Record (Type P) Layout

Data Item	Description
Record Type	A one-character identifier for the record type. Value is "P."
CUSIP Number	The CUSIP number is a unique, nine-character identification number permanently assigned by the Committee on Uniform Securities Identification Procedures to each publicly traded security at the time of issuance.
Pool ID	The Ginnie Mae Pool identifier; the identifier assigned by Ginnie Mae at pooling to the pool.
Issue Type	Designates the Issue Type of the pool. MBS pools are "X", "C", or "M."
Pool Type	The type of MBS pool as defined in Chapter 1 of the Ginnie Mae Guide.
Pool Issue Date	The date the pool was issued; this is always the first of any given month. Format is CCYYMMDD.
Issuer ID	The four-digit number assigned by Ginnie Mae to the MBS Issuer organization. This will be blank for Multi-Issuer Pools.
As-of Date	A 6-digit field (CCYYMM format) that represents the Reporting Period of the data in the file.

Ginnie Mae MBS Loan-Level Disclosure Definitions Version 1.3

Loan-Level Record (Type L) Layout

Data Item	Description
Record Type	A one-character identifier for the record type. Value is "L."
Pool ID	The Ginnie Mae Pool identifier; the identifier assigned by Ginnie Mae at pooling to the pool.
Disclosure Sequence Number	An internal 10-digit sequence number associated with the particular disclosure record.
Issuer ID	The four-digit number assigned by Ginnie Mae to the MBS Issuer.
Agency	<p>Identifier of the government agency. Values are:</p> <ul style="list-style-type: none"> F = Federal Housing Administration V = Veterans Administration R = Rural Development N = Native American <p>This element is usually static; corrections are rarely reported.</p>
Loan Purpose	<p>The purpose of the loan. Values are:</p> <ul style="list-style-type: none"> 1 = Purchase 2 = Refinance 3 = Loan Modification (HAMP) 4 = Loan Modification (non-HAMP) <p>The element is always available on newer loans and may be available on older loans.</p>
Refinance Type	<p>The type of refinance of the loan. Values are:</p> <ul style="list-style-type: none"> 1 = Not Streamlined, Not Cash Out 2 = Cash Out 3 = Streamlined <p>This element is only for loans with Loan Purpose = 2. For newer loans with Loan Purpose = 1 or 3 or 4, Refinance Type will be blank.</p>
