5. To display notifications for a different 'Issuer Number', click on the drop-down box, select a different 'Issuer' and click GO. The screen will refresh with the newly selected 'Issuer' and 'Issuer' and all notifications sent to that Issuer number in the past 30 days.
6. Each 'Issuer' is associated with only one inbox; however, multiple Users within the organization can access that inbox.
7. Notices are displayed in one line. New notices appear in red. Notices already viewed show the name of the person who read the notice and the date read.
8. For a new notice, the 'Read By' and the 'Date Read' fields are blank. These fields are updated with the User information the first time the notice is read. Even if the notice is read later by other Users, it will always display the name of the User that first read the notice and the date they first read it. Ginnie Mae considers this to be the official "read or not read" information about the notice. *Notices that have not been read in five days are automatically reported to the applicable Ginnie Mae account executive.*
9. By default, the notices are sorted by their 'Date and Time Received', with the most recent date on top. By clicking the column header, the User may sort notices on: 'Subject' 'Read By' or 'Date Read'. Clicking the same header reverses the sort order.
10. To read a notice, click on the notice's link in the 'Subject' column.

 - (e.g. text files, PDFs, letters) from Ginnie Mae's processing systems (i.e. from the pool processing agent systems, central payment and transfer systems, and notices from the data collection and feedback system).
 - Many of these are routine daily, weekly, monthly notices and content. e-Notification also processes custom notices and ad hoc notices from Ginnie Mae.
- Many of the processing notices have the direct link to the content. It is up to the Issuer to determine how best to use the content. Some content is in 'raw' text files, where other files are formatted.
- The notification is always linked to the most currently available information.
 - Be aware that notifications for the same subject are linked to the same most current information.
 - Prior period production reports must be obtained through the Ginnie Mae Help Desk
