**HMBS Pool Level Disclosure Summary Characteristics**

Characteristic	Description
Two Physical Files	<p><u>HMBS Pool/Security File:</u> Pool/Security information with one record per active pool. This will be one physical file with single header record at beginning of file and single trailer record at end of file.</p> <p><u>HMBS Pool Supplemental File:</u> Supplemental information for all pools, with multiple records per pool. This will be in one physical file with single header record at beginning of file and single trailer record at end of file.</p>
HMBS Pool/Security Record Type	One Record Type with basic information about the Pool and also provides the Security RPB, RPB Factor, and Weighted Averages (WA) for various attributes. This record is an enhanced version of the current “D” record in the HMBS Disclosure File V4.4. The HMBS Pool/Security File will only contain a header, trailer, and this one record type for each active pool.
HMBS Pool Supplemental Record Types	Thirteen (13) Supplemental Record Types providing extensive information about the pool activity and characteristics. Most of these record types have common format and enumeration characteristics.
Flexible Format	All Records are produced as text format with Pipe ( ) delimited separation between fields. The files will be published in compressed (zip) format.
Population of Records and Fields	<p>HMBS Pool/Security Record will always be produced. There can be occurrences of “  ” (bar-bar) where there is no data value for a field.</p> <p>HMBS Pool Supplemental Records are “data driven” and therefore individual Record Types are produced based on the characteristics of the pool.</p> <p>Fields within Record Types are “data driven” and therefore populated based on characteristics of the pool. There can be occurrences of “  ” (bar-bar), where there is no data value for a field.</p>
Explicit Decimal Point	For fields that have values with decimal points, the HMBS Pool/Security File records and the HMBS Pool Supplemental File records will explicitly include the decimal point;
Sort Order of Records	<u>HMBS Pool/Security File:</u> Records will be sorted by Pool ID in ascending order.

**Ginnie Mae HMBS Pool Disclosure File Version 5.0 01/30/2023**

	HMBS Pool Supplemental File: Records will be sorted by Pool ID (ascending order); Record Type within Pool
Record Type Layouts—Item Number	Each of the Record Type layouts in this document have an “Item” number column. The Item numbers are for documentation reference only, and are not included in the physical output record.
Daily New Issuance, Monthly New Issuance, and Monthly Portfolio	The file layouts are the same for: HMBS Daily Pool New Issuance, Monthly Pool New Issuance, and HMBS Pool Monthly Portfolio disclosures.
Implementation Dates	New Issuance Files (Daily and Monthly), as well as the Monthly Portfolio are targeted for production release beginning in the 3 <sup>rd</sup> quarter 2023.
Production Test Files (for Version 5.0)	Sample Production test files for the HMBS Pool Level Disclosures will be available in the 2 <sup>nd</sup> quarter 2023.
Transition Period	Ginnie Mae will produce the existing HMBS Pool Disclosure File V4.4 files and the HMBS Pool Disclosure File V5.0 files, in parallel, for a period of 3 months.

**General Characteristics of the Files and Records**

This section of the document provides an overview of the common characteristics of the records in the files. The detailed technical specification of files and record formats is in the following section of this document.

**HMBS Pool/Security File**—The records in this file have a single common format, where there is one record per pool with specified fields. This file does not have stratifications or enumerations.

**HMBS Pool Supplemental File**—The records in this file are standardized and have stratifications and enumerations. There are 5 unique, different record layouts. Two (2) of the record layouts have specific common formats:

- Unique Record Types
  - Unique Records – Record Types “01” and “02” (each with a unique record layout)
  
- Common Stratification Layouts
  - One-Field Stratification Records – Record Types “03” – “12”; Record Types “03” – “06”, “07” - “12”, and “08” have unique record layouts.
  - Two-Field Stratification Records – Record Type “13”

**HMBS Pool Supplemental File Summary of Record Types and Names**

Record Type	Stratification Level	Record Name
01	None	Quartiles
02	None	Various
03	1	Payment Option
04	1	Property Type
05	1	Age of Youngest Borrower/Co-borrower
06	1	Age of Youngest Eligible Non-Borrowing Spouse
07	1	Metropolitan Statistical Areas (MSA) Code
08	1	State Code
09	1	Loan Purpose

**Ginnie Mae HMBS Pool Disclosure File Version 5.0 01/30/2023**

10	1	HECM Saver
11	1	Low Moderate Borrower Income Record
12	1	Not Available

**Ginnie Mae HMBS Pool Disclosure File Version 5.0 01/30/2023**

The HMBS Pool Supplemental file will contain stratification records that can be “one field” or “two field” stratifications. The general characteristics of each is presented below, as each particular type of stratification record will have its own common format. The general specification of each common format is provided as a general guide to the technical specifications.

**HMBS Pool Supplemental File Record Types 03 through 06 “One Field Value” Stratification Common Record format**

Item	Data Element	Type	Max Length	Format	Description
01	Record Type	Character	2		The Record Type value “03” through “06”.
02	CUSIP	Character	9		The unique identification number permanently assigned by the Committee on Uniform Securities Identification Procedures (CUSIP).
03	Pool ID	Character	6		The Ginnie Mae unique identifier for the pool; this is assigned by Ginnie Mae at pool issuance.
04	Pool Indicator	Character	1		Identifies the Issue Type of the pool (H).
05	Pool Type	Character	2		The type of Ginnie Mae pool. Appendix 1 provides a listing of pool types.
06	<b>Field Value</b>	Character	2		Values described in Record Types “03” through “06”.
07	Number of Participations	Numeric	5		The number of participations in the pool for the field value.
08	UPB of Participations	Numeric	14	11.2	The Unpaid Principal Balance (UPB) of the participations for the field value.
09	UPB of Participations as a % of Pool UPB	Numeric	6	3.2	The UPB of the Participations as a percentage of the Pool UPB for the field value.
10	UPB of Participations as % of Principal Limit of HECMs	Numeric	6	3.2	The UPB of the Participations as a percentage of the total of the HECM Principal Limit for all HECMs associated with those Participations, for the field value.
11	UPB of Participations as % of MCA of HECMs	Numeric	6	3.2	The UPB of the Participations as a percentage of the total of the HECM Maximum Claim Amount (MCA) for all HECMs associated with those Participations, for the field value.
12	HECM UPB as % of Principal Limit of HECMs	Numeric	6	3.2	The total HECM UPB for all HECMs associated with the Participations as a percentage of the total of the HECM Principal Limit for those same HECMs, for the field value.
