1.0 GENERAL INFORMATION—SECURITY
1.0 GENERAL INFORMATION—SECURITY

1.1 GINNIE NET SECURITY

GinnieNET On the Web replaced GinnieNET 2020 and pen electronic signature technology with a new biometric fingerprinting. Fingerprint biometrics is based on the distinctive characteristics of the human fingerprint. It is estimated that the chance of two people, including twins, having the exact same fingerprint is less than one in a billion. For decades, fingerprinting has been utilized in booking procedures or conducting criminal investigations. Fingerprinting have become the de facto standard for eAuthentication.

Fingerprints are identified by characteristics known as minutiae points and the relationship between the points. A fingerprint will be scanned three times during enrollment and a generalized collection of the minutiae will be saved on the GinnieNET network. An image of the individual’s fingerprint will not be stored on the database.

Fingerprint enrollment requires public and private keys. RSA Public and Private key generation software is used to create one Public key diskette and one Private key diskette per user. The information contained on these RSA diskettes enables users to work with functions requiring security access in the Communications and Signature Enrollment menus on GinnieNET On the Web. An individual’s RSA password is contained on the RSA Public key diskette.

There are three (3) types of Users with GinnieNET On the Web. The Enrollment Administrator (Security Officer in the GinnieNET On the Web site) is an employee of the Issuer/Custodian who adds users, assigns roles, verifies credentials for fingerprint enrollment and resets passwords. The Data Entry user does data entry, data imports and generates reports. The Authorized Signer has network access and initiates communication with the network by sending and/or receiving pools, inquiries, etc. The Data Entry user may also be granted access as an authorized signer.

All users will need to provide credentials prior to gaining access to the GinnieNET On the Web. The Enrollment Administrator’s credentials must be validated (in-person enrollment) who in turn will be responsible for validating the credentials of other users and for capturing the initial biometric reading for authorized signers as they are added to the system. A government photo ID will be required (i.e., driver’s license, passport, etc.) along with the GinnieNET public and private key disk.

Ginnie Mae strongly recommends that each Issuer and Custodian location maintain separate enrollment administrators and that each location have a back-up enrollment administrator.

There is no installation required for GinnieNET On The Web. To access GinnieNET On-the-Web from your internet browser, type www.ginnienet.net. This URL will take you to GinnieNET On The Web.

Issuers will, need to install the fingerprint scanner and RSA Public and Private Key generation software which are available on www.ginnienet.net.
1.2 **HARDWARE AND SOFTWARE REQUIREMENTS**

Equipment must meet the following minimum configuration requirements for acceptable GinnieNET performance:

<table>
<thead>
<tr>
<th><strong>EQUIPMENT</strong></th>
<th><strong>USER</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Operating Systems</td>
<td>Windows XP, Windows Vista, Windows 7</td>
</tr>
<tr>
<td>Memory</td>
<td>256 MB</td>
</tr>
<tr>
<td>Hard Drive</td>
<td>45 MB</td>
</tr>
</tbody>
</table>

**Miscellaneous Requirements**

- High Speed Internet Connection
- Internet Explorer (32-bit versions only) 6 through 11
- Mouse
- Available USB Port
- CD-ROM Drive and Floppy Disk drive
- Adobe Acrobat Reader (free download)

**Recommended Screen Resolution**

Minimum: 1152x864

GinnieNET Customer Service is available from 8:30 AM to 7:00 PM EST. Our Customer Service department will answer question pertinent to hardware and software problems, including the fingerprint enrollment, installation and communications.

The toll free number is 1-800-234-4662, option #1 and the e-mail address is: Ginniemae1@bnymellon.com

We are located at the following address: Bank of New York Mellon 101 Barclay Street (8 East) New York, NY 10286

GinnieNET Customer Service is closed on all federal and bank holidays.
2.0  **DOWNLOAD AND INSTALLATION**
2.0 RSA PUBLIC AND PRIVATE KEY GENERATION SOFTWARE OVERVIEW

2.1 DISCUSSION OBJECTIVE

The objective of this chapter is to train Issuers and Custodians on the installation of the RSA Public and Private Key Generation systems. Private and Public Keys are generated to store the identity of the authorized signatory. At this point, an authentication password for each authorized signer will also be assigned for subsequent use in shipping and certifying the pools.

This chapter will provide details on how to:

- Install the RSA Public and Private Key generation;
- Create a Public and Private Key certificate; and
- Use the Public and Private Key certificate for fingerprint enrollment.

2.2 DOWNLOADING AND INSTALLING RSA PUBLIC AND PRIVATE KEY GENERATION SOFTWARE

To begin the download process, begin by logging into the GinnieNET website at www.ginnienet.net.

![GinnieNET On The Web User Login Screen](image)
2.2.1 Site Requirements

2.2.1.1 Disabling the Pop-Up Blocker

Access to this site requires that any pop-up blocker be turned off within the user’s browser settings. To turn off the pop-up blocker, step through the following procedural flow:

[Step 1] Select on Pop-up Blocker Options under main menu item Tools.

[Step 2] Click on Pop-up Blocker Settings… item.

[Step 3] Enter our web address in the box for Address of Web site to allow, and click on the <Add> button.

[Step 4] Click on the <Close> button to close the current dialog box.

[Step 5] Select Maintenance and Download Key Generation Software.

[Step 6] Click on the screen’s <Open> button to unzip the software.

[Step 7] Click on the <Next> button to continue.
[Step 8] Click on the <Unzip Now> button (FIGURE 5), to complete the current file download task.

2.2.2 Installing RSA Key Generation Software

RSA Public and Private Key generation software is used to create one Public Key diskette and one Private Key diskette per user. The information contained on these RSA diskettes enables a user to work with functions requiring security access in the Communications and Signature Enrollment menus on GinnieNET. An individual’s password is contained on the RSA Public Key diskette.

Each Issuer should have a designated security officer who is responsible for creating the RSA diskettes. The RSA Public and Private Key generation software is to be installed only on the PC utilized by the security officer. This software must be loaded on a local drive on a resident PC. It should not be installed in a LAN environment.
NOTE: If there is only one (1) user working with GinnieNET at a particular site, and no Security Officer has been designated, the individual user will function as the Security Officer.

[Step 1] Click on the DISK1 line item selection, as shown below in Figure 6.

![Figure 6 DOCUMENTS AND SETTINGS LINE ITEM LISTINGS SCREEN](image)

[Step 2] On the new Windows Explorer screen, select the SETUP.EXE file, as shown on the right side of the screen (Figure 7 AREA OF DETAIL).

![Figure 7 WINDOWS EXPLORER SCREEN (W/SETUP.EXE FILE SELECTION)](image)

[Step 3] Double-click on the SETUP.EXE file to begin the installation process.

NOTE: The SETUP.EXE file step the user through the full installation process, and provide systematic instructions until the full installation is complete.

[Step 4] Make sure that you read the instructions on the Setup screens. If there is a discrepancy between this Training Guide and the instructions on the Setup screen, always be sure to follow all instructions as set forth on that Setup screen.
[Step 5] On the new Welcome screen (Figure 8), click on the <Next> button.

[Step 6] Enter the required information in both the Name and Company fields on the User Information screen.

[Step 7] Click on the screen’s <Next> button to proceed to the Choose Destination Location screen, as shown below in Figure 9.
**[Step 8]** The default destination directory for your RSA Public and Private Key generation software will be a directory on your local hard drive as shown above in the `C:\Program Files\Key Generation` example. You may choose a different drive or directory by clicking on the screen’s <Browe...> button. Accepting the setup default is simple and safe. The user may change the directory if desired, then click on the <Next> button to proceed.

![Figure 10: Key Gen Setup Select Program Folder Screen (W/<Next> Button)](image)

**[Step 9]** The Program Folder (or group) is the window in which the RSA program icons will be located. The program folder name, which appears in the Program Folders field above, is the default. This name will used on the Windows Programs Menu. The user may change the directory if desired, then click on the <Next> button to proceed to the next screen to review the selected entries.

![Figure 11: Key Gen Setup Start Copying Files Screen (W/<Next> Button)](image)
[Step 10] After confirming all selections, the user may click on the <Next> button once again to begin the full file copying process. A download status bar will then display, like that shown here in Figure 12.

![Download Progress Bar](image)

**Figure 12** Key Gen Setup File Download Progress Bar

When the download process is completed, a new program group will be placed on the Program Files menu area of the user’s Desktop.

![Windows Explorer Screen](image)

**Figure 13** Windows Explorer Screen (w/Program Files Selection)

[Step 11] Finally, the user will be prompted to “Launch the program file”. The user may then either run the program immediately (now), or execute the program file at a later date. Ensure that you allow the program to run NOW. This launch process will take only a very few minutes to complete.

**Note:** Two (2) IBM-formatted, 3½” floppy diskettes, or CDs will be required.
2.3 RSA PUBLIC AND PRIVATE KEY CERTIFICATES

2.3.1 Creating Private and Public Keys Using Floppy Diskettes

NOTE: To create the Private and Public keys on removable media without using floppy diskettes, please refer to Section 2.3.2, beginning on page 12.

2.3.1.1 Requirements

You will need two (2) blank, IBM-formatted, 3½ " floppy diskettes to proceed. Ensure that you label them “Disk 1: Private Key Disk”, and “Disk 2: Public Key Disk”.

RSA Private and Public Key certificates are created by the Security Officer to establish GinnieNET security. These certificates are required for the FINGERPRINT ENROLLMENT process. This fingerprint enrollment process will require the following:

(a) That the user has a Private Key certificate stored on Disk 1; and
(b) That the Public Key certificate stored on Disk 2 has been properly certified and authenticated by GinnieNET Customer Service.

After the Security Officer creates the Public and Private Key certificates, the Public Key Disk (Disk 2) must be sent to GinnieNET Customer Service for authentication. Public Keys that have not been authenticated will not allow a user to complete the Fingerprint Enrollment process.

Mail each user’s Public Key Disk to the following address:

GinnieNET Customer Service
BNY Mellon
101 Barclay Street, 8E
New York, New York 10286

Turnaround time for Public Keys authentication, once GinnieNET Customer Service receives the Public Keys, is (48) hours.
2.3.1.2 Installation Procedures

[Step 1] The user may begin by double-clicking on the RSA Key Generation icon in their Certificate Registration program group to start the process. Alternatively, the user may also run the program from the Windows Taskbar by stepping through the following menu flow:

(a) Follow the simple Start—Certificate Authority—Key Generation navigational flow to access the Key Generation screen.

[Step 2] On the new Key Generation screen, click on the Create New Key Pair icon in the center of the screen (FIGURE 14) to create both the Public and Private Key disks.

![FIGURE 14 RSA PUBLIC/PRIVATE KEY GENERATION SCREEN (W/ICON SELECTION)]

The Key Generation Information screen will then display, like that shown below in FIGURE 15.

![FIGURE 15 KEY GENERATION INFORMATION SCREEN]
[Step 3] Select the appropriate disk drive and enable the radial checkbox (⊙) to indicate your choice. The User Information screen will then display.

[Step 4] On the new User Information screen, follow all instructions carefully, ensuring that you enter the full name of the authorized signing representative.

**NOTE:** The user may use either the <Tab> key, or <Shift>–<Tab> keys, to move the cursor between the screen fields. The user may also at any time click on the screen’s Help icon for further assistance.

[Step 5] Follow the directions to create a valid RSA password (FIGURE 16). Be certain to select a password that can be easily remembered without writing it down.

![FIGURE 16 PASSWORD ENTRY/DEFINITIONS MESSAGE](image)

[Step 6] Click on the Create New Key Pair icon. The Password Confirmation screen shown below in FIGURE 17, will then display.

![FIGURE 17 PASSWORD CONFIRMATION MESSAGE](image)

[Step 7] The system will now prompt the user to confirm their new RSA password. Re-enter the password a second time, then click on the <OK> button to proceed. The Disk Change screen will then display.

![FIGURE 18 DISK CHANGE (PRIVATE KEY) SCREEN](image)
[Step 8] You will be instructed to insert the Private Key (Disk 1) disk insert one of the blank, formatted floppy diskettes in the floppy drive and click on the <OK> button.

[Step 9] The system will then ask the user for the Public Key diskette (Figure 19). Remove the Private Key (Disk 1) diskette from the floppy drive and insert the second Disk 2 diskette, then click on the <OK> button once again.

![Figure 19 Disk Change (Public Key) Screen](image)

**NOTE:** Once you have removed the Disk 1 diskette, with the second diskette already in the drive, take a moment to carefully label your Disk 1 as such immediately, to avoid possible confusion between the two diskettes.

The Key Generation **Success** screen will then display, like that here in Figure 20, and the key generation process will be complete.

![Figure 20 Key Generation Success Screen](image)

[Step 10] Review and adhere to all of the instructions for the disposition of the Public Key disk and submission of supporting documentation, to include: (a) the screen instructions above; (b) instructions at the beginning of this section, and those in Program Enrollment and Set-Up. The user will be responsible for submitting the required materials and supporting documentation.

**NOTE:** If you have questions, call GinnieNET Customer Service at 1-800-234-4662, **Option 1**.

[Step 11] Click on the <OK> button to complete the key generation action, and to exit the program.
2.3.2 Generating KeyPairs on a Workstation Without a Floppy

[Step 1] Create a directory named KeyPairs (note spelling and character spacing) on your local hard disk, or on a network drive to which you have full access rights.

[Step 2] Ensure that you leave the window open (deployed).

[Step 3] Now, open a Command window and type the command: 

```
subst b: p:\keypairs
```

then press the <Enter> key.

[Step 4] Now, run the Key Generation application. Ensure that you have optioned the Drive B: radial button; then click on the screen’s <Next> button to proceed to the next level. The Key Generation Information screen will then display (FIGURE 23).
[Step 5] Once the user receives the message ‘Please insert your PRIVATE Key disk’ (Figure 24), simply click on the screen’s <OK> button.

[Step 6] Once the user receives the message ‘Please insert your PUBLIC Key disk’ (Figure 25), simply click on the screen’s <OK> button.
[Step 7] Now, move the files shown on the B:\ drive as PRIVKEY.DER, PRIVKEY.DSK and USER.DN to the Private subdirectory, as shown below in Figure 26.

![Figure 26 B:\ Drive File Moves (I)](image)

[Step 8] Once the user receives the message ‘Please Insert your Public Key Disk’, click on the <OK> button.

[Step 9] When the Key Generation application completes, move the files shown on the B:\ drive as USERCERT.DER and PUBKEY.DSK, to the Public subdirectory.

![Figure 27 B:\ Drive File Moves (II)](image)

[Step 10] Now, send the files in the Public directory to the GinnieNET Certificate Authority. This can be done by copying the files to a removable media such as a CD or a flash drive. When the files are returned, replace the files in the Public directory.
[Step 11] Eliminate the drive substitution by typing, `subst b: /d` in the Command box, then press the <Enter> key.

![Image of command prompt showing drive substitution]

**FIGURE 28 B: TO D: DRIVE SUBSTITUTION (COMMAND LINE ENTRY)**
2.4. INSTALLING M2SYS BIOPLUGIN CLIENT 7.0.3 ON WINDOWS 7

24.1 Prerequisites

1. The person installing the client must have administrative privileges to install software on the machine and must be logged in locally and not remotely into the machine. The Protected Mode should not be enabled for Trusted Zone as shown in the screen below.

![Internet Options](image)

2. The website [https://www.ginnienet.net](https://www.ginnienet.net) should be in the Trusted sites zone. The setup automatically adds the website to Trusted sites zone if it completes successfully. If browser settings are controlled using group policies then the website should be added to trusted sites zone using group policy. A good indication of browser settings are controlled by group policy is when a user cannot modify the browser settings.

3. The user needs to use the 32-bit version of the Internet Explorer. This version of the client does not work with the 64-bit version of Internet Explorer.

4. The fingerprint reader is a desktop device. The web application triggers an ActiveX control.
2.4.2 Installation Procedures

**IMPORTANT:** *Do not attach* the fingerprint scanner until the full installation process is complete and your system has been restarted.

[Step 1] To begin the download process log onto the GinnieNET website, at www.ginnienet.net, to download the software.

[Step 2] Enter your assigned User ID and password in their respective fields, then click on the screen’s *<Login>* button (**ERROR! REFERENCE SOURCE NOT FOUND**).

![GinnieNET Login Screen](image)

**NOTE:** This site will require that the user disable (turn off) the pop-up blocker in their browser settings. To do so, step through the following quick flow, then resume the Installation procedure.

a) With the browser window open, click on the **Tools** option from the standard toolbar, then select the **Pop-up Blocker** option.

b) Click on the **Pop-up Blocker** menu option.

c) Click on the **Pop-up Blocker Settings** sub-menu option.

d) Enter our web address in the screen’s **Address of website to allow** field, then click on the *<Add>* button.

e) Click on the *<Close>* button to close out the current website allowance action.
Getting Started

Current Release Date: 07/16/2012

[Step 1] Returning to the GinnieNET Main Menu screen, click on the screen’s Maintenance link.

[Step 2] Click on the Download Fingerprint Software link. A Security Warning message screen will then display, like that shown here in ERROR! REFERENCE SOURCE NOT FOUND.

a. Select Download New Fingerprint Software

b. Select Download New Fingerprint Software for 32bit Operating System if the Operating System is Windows 7 32bit.

c. Select Download New Fingerprint Software for 64bit Operating System if the Operating System is Windows 7 64bit.

1. Remove the fingerprint scanner from the USB port.

2. Run the setup and follow the prompts. Click the Next button in the screen given below.
3. Click the **Next** button in the screen given below:

![Welcome Screen](image)

**Figure 32 InstallShield Wizard Welcome Screen**

On the new M2SYS BioPlugIn Client InstallShield Wizard Welcome screen, click on the <Next> button once again to proceed to the next screen level. A **License Agreement** screen will then display, like that shown here in *ERROR! REFERENCE SOURCE NOT FOUND.*
4. Select “I accept the terms in the license agreement” and click the **Next** button as shown in the screen below.

![License Agreement Screen](image)

**Figure 33: InstallShield Wizard License Agreement Screen**

Carefully read the License Agreement’s **Electronic License and Warranty Agreement** section. The user may also click on the screen’s <Print> button to route the License Agreement to print should you wish to obtain a printed copy of that License Agreement.

Enable the **I accept the terms in the license agreement** radial button (○), to signify your review and agreement with all terms specified therein.

Click on the <Next> button once again to proceed to the next screen level. The **Customer Information** screen will then display, like that shown below in **Error! Reference Source Not Found.**
5. Enter the User Name and Organization and click the Next button as shown in the screen below:

![Screen shot of InstallShield Wizard Customer Information Screen]

Figure 34: InstallShield Wizard Customer Information Screen

Enter a specific user name in the User Name: field, and organization name in the screen’s Organization: field, then click on the <Next> button. The Destination Folder screen will then display, like that shown on the following page in ERROR! REFERENCE SOURCE NOT FOUND.
6. Click the **Next** button as shown in the screen below:

![Figure 35: Install Shield Wizard Destination Folder Screen](image1)

**Figure 35 Install Shield Wizard Destination Folder Screen**

**Step 1**
The Installation setup will recommend a *default* installation. If you need to change to a *different* folder, or to create a *new* folder, click on the *Change* button. Click on the *Next* button if the current destination folder location is acceptable, and to move on to the next screen level. The **Ready to Install the Program** screen will then display, like that shown below in **ERROR! REFERENCE SOURCE NOT FOUND.**

![Figure 36: Install Shield Wizard Ready to Install the Program Screen](image2)

**Figure 36 Install Shield Wizard Ready to Install the Program Screen**
On the new **Ready to Install the Program** screen, the program folder will display the location in which the Bio-Plugin program can be found. The program folder name, which appears in the Program Folders field above, will be set as the default. To change any of the current settings, simply click on the <Back> button to return to any of the previous screen series to effect that setting change, or click on the <Install> button to ACCEPT all settings, and to begin the file downloading process.

![Figure 37: InstallShield Wizard Status Bar Screen](image)

The system will again display an installation “progress bar” (**ERROR! REFERENCE SOURCE NOT FOUND**) to indicate the status of the current software installation. Be advised that the system may take several minutes to copy all program files.
7. Once the setup of Bioplugin client is finished, the setup will automatically start the installation DigitalPersona One Touch for Windows as shown in the screen below.

![DigitalPersona One Touch for Windows Configuration Screen]

**Figure 38** **DigitalPersona Gold Fingerprint Recognition Software 3.0.0 Configuration Screen**
8. The setup will prompt for connecting the biometric scanner to the USB port after the installation of DigitalPersona One Touch is complete as shown in the screen below.

![Connecting Fingerprint Scanner](image)

**FIGURE 39 CONNECT FINGERPRINT SCANNER SCREEN**

Once the user has received the “Driver installation completed successfully” message screen (ERROR! REFERENCE SOURCE NOT FOUND.), they should simply click on the <OK> button to complete the full program installation.

**NOTE:** Be advised that by clicking on the <OK> button above will also serve to restart the user’s computer.

9. Once the user logs back into the system, they may now physically attach the Fingerprint Scanner hardware to any of their PC-based USB port connection point.
2.4.3 Troubleshooting

Server connection failed. Make sure server is running

This message is displayed if https://www.ginnienet.net is not added to trusted zone or the Protected Mode is enabled for Trusted Zone. Please ensure that the prerequisites 2 and 3 have been fulfilled.

The selected component not found. Please try again or install the component correctly.

This message is displayed if the software has not been installed correctly or installed the software using non Local Admin privileged account.

Please follow the below steps to solve the problem.

- Uninstall M2SYS Bioplugin Client 7.0.3
- Uninstall DigitalPersona One Touch for Windows.
- Remove the biometric scanner from USB port.
- Restart the machine
- Reinstall the software by following the steps under heading Installing M2SYS Bioplugin Client 7.0.3 on Windows 7 in this document.

Error trying to scan the fingerprint. Please ensure that the scanner is attached and try again.

This message is displayed if one of the below conditions are true:

The Biometric scanner is not attached to the USB port.

The software has not been installed correctly and the biometric engine is not able to start.

The software prompts for License ID (LID) number

If the software prompts for License ID as shown in the screen below, please contact the GinnieNET helpdesk and request a new LID number. Please enter the new LID number in the License ID field and click the OK button.

![License Activation Screen](image)

**Figure 43: License Activation Screen**

Current Release Date: 07/16/2012  
Not for use or disclosure without the express written consent of Ginnie Mae.  
Intellectual property of the Organization.
3.0   SECURITY ADMINISTRATION
3.0 SECURITY ADMINISTRATION

The Enrollment Administrator (Officer) in each Issuer/Custodian office will be responsible for assigning new IDs. GinnieNET will assign an unique ID to each user with a standard password. The password must be changed the first time a new user logs onto the system.

It is recommended that at least two (2) Security Officers (primary and backup) be identified from each Issuer/Custodian location.

**ADVISORY**1: The user may at any time click on the Change My Password link, shown on the left of the screen, to change their password, if desired.

**ADVISORY**2: Also, be advised that clicking on the Logout link, in the upper right-hand corner of the page, will close the current session and log the user completely out of GinnieNET.

3.1 ADD NEW USER ACCOUNT

[Step 1] To begin the enrollment process, the Enrollment Administrator will log onto www.ginnienet.net and enter their GinnieNET ID and password. The GinnieNET On The Web Main Menu screen will then display.
[Step 2] On the new GinnieNET On The Web Main Menu screen, click on the Security Administration link, then click on the Add New Local User Account link. The Add New Local User Account screen will then display (Figure 43).

![GinnieNET On The Web Main Menu](image1)

**Figure 42 GinnieNET On The Web Screen Security Administration Option**

**NOTE:** No one should know your Password. The user must ensure that they create a password that can easily be remembered. The security and integrity of the password could be compromised should you write it down in an unsecure location. The user may modify their password at any time by simply clicking on the Change My Password link located on the left hand side of the page.

[Step 3] On the new Add New Local User Account screen, enter the user name in the corresponding User’s Screen Name: field.

[Step 4] In the User’s Title: field, enter the current user’s title.

[Step 5] In the next Initial Password: field, enter the initial password for the current user.

[Step 6] In the next Initial Role: field, you must now select a role for the current user from the values presented in the field’s drop-down menu. Click on the down-arrow [▼] adjacent to the field to select a valid role for the current user. The option Not Selected will always be the default for this field.

![Add New Local User Account Screen](image2)

**Figure 43 Add New Local User Account Screen**
[Step 7]  The user may bypass the Issuer ID field.

[Step 8]  The system will automatically generate the assigned Custodian ID.

[Step 9]  Once all data has been entered in the fields, simply click on the screen’s <Submit> button to generate the new User ID. The screen will refresh, and a confirmation message will be displayed at the bottom of the screen, like that shown below in Figure 44.

![Figure 44: Add New Local User Account Confirmation Screen](image)

The new user profile will have been added as new [C600356]. The system will generate a different User ID to access GinnieNET for each new user added to the system.

**NOTE:** Clicking on the screen’s Return to Main Menu link, shown in the right-hand corner of the page, will return the user to the previous Main Menu screen, while clicking on the Logout link will exit the user completely from the GinnieNET environment.
3.2 Manage User Account

[Step 1] From the GinnieNET On The Web Main Menu screen, select Manage User Account.

Using this Manage User Account option will fully allow the Enrollment Administrator to assist other users with all of the following tasks:

- Assign Role;
- Update Profile;
- Reset Password; and
- Activate/Deactivate User.
3.3 **Assign User Role**

The **Assign Role** option allows the Enrollment Administrator to grant access to different functions within the GinnieNET system.

**[Step 1]** Click on the down-arrow adjacent to the **Select user ID or login name** field to select a user by their User ID or username.

![Figure 47 GinnieNET On The Web Manage Local User Account Screen](image1)

**[Step 2]** If there is more than one (1) Custodian assigned to the system, click on the down-arrow adjacent to the field, and select the desired Custodian ID.

![Figure 48 Manage Local User Account Screen (w/Custodian ID Field)](image2)
[Step 3] On the new (refreshed) screen, enable the desired (and related) function(s) for the current user, then click on the screen’s <Submit> button to complete the current role-defining action.

![Manage Local User Account Screen](image)

**Figure 49 Manage Local User Account Screen (w/Role(s) Selected Field)**

To change the role(s) for another user using this same screen, simply search for the user(s) you wish to assign one or more role(s) to, by clicking on the down-arrow [▼] adjacent to the field, and selecting another User ID or login name.

**Note:** Clicking on the screen’s **Return to Main Menu** link, shown in the right-hand corner of the page, will return the user to the previous Main Menu screen, while clicking on the **Logout** link will exit the user completely from the GinnieNET environment.
3.4 **UPDATE PROFILE**

3.4.1 **Update Screen Name or Update Screen Title**

**[Step 1]** By selecting User ID or login name, a User can update or assign roles by the following the steps provided below:

![Update Profile Screen](image1)

**Figure 50 Manage Local User Account Screen (Update Profile Tab—Unpopulated)**

**[Step 2]** Change a screen name by entering a new screen name and clicking on the `<Update screen name>` button.

**[Step 3]** Change the screen title by entering a new screen name and clicking on the `<Update screen title>` button.

![Update Profile Screen](image2)

**Figure 51 Manage Local User Account Screen (Update Profile Tab—Populated)**
3.5 **RESET PASSWORD**

**[Step 1]** Click on the down arrow [▼] adjacent to the **Select user id or login name.** field, then select the target User ID (or login name) for the password to now be reset.

**NOTE:** No one should know your password. Be sure to create a password that you can easily remember. If you write the password down in an unsecure location, its value as a security device could be compromised and diminished.

![Figure 52 Manage Local User Account Screen (Reset Password Tab—Select User ID)](image)

**[Step 2]** Enter the new password in the screen’s **Type the new password:** field, then click on the **<Submit>** button.

![Figure 53 Manage Local User Account Screen (Reset Password Tab—Reset Password)](image)

**[Step 3]** The screen will refresh and display the message **Password re-initialized.** on the screen.

**NOTE:** Clicking on the **Return to Main Menu** link in the right hand corner of the page will return the user to the previous Main Menu screen. Clicking on the **Logout** link will exit GinnieNET altogether.
3.6 **ACTIVATE/DEACTIVATE USER**

This option will allow users to Activate/Deactivate users on the GinnieNET system.

[Step 1] Click on a desired checkbox (✓) under the Active/User ID/User Name screen area to select the user (or users) you wish to activate/deactivate, then click on the screen’s <Save Changes> button. A confirmation screen will then display like that shown below in **Figure 55**.

**NOTE:** Clicking on the Return to Main Menu link in the right hand corner of the page will return the user to the previous Main Menu screen. Clicking on the Logout link will exit GinnieNET altogether.
3.7 **Fingerprint Enrollment Overview**

GinnieNET Authorized Signatories are required to appear on the GinnieNET Enrollment Form.

- Must have their Private Key and signed Public Key;
- Must have a government picture ID:
  - Enrollment Administrator will open the Fingerprint Enrollment page.
  - Enrollment Administrator will insert the enrollee’s public key.
  - The application will check the key to ensure that it contains ‘GinnieNET Certificate Authority.
  - The application will extract and display the user name from the public key.
  - Enrollment Administrator will request the enrollee’s government picture ID.
  - Enrollment Administrator will confirm that the enrollee is the individual in the picture.
  - Enrollment Administrator will confirm that the enrollee’s government picture ID name matches the name on the public key.
  - Enrollment Administrator will enter the type of government picture ID and the ID Number.
  - The enrollee will insert the private key.
  - The enrollee will enter the private key password.
  - The application will verify the password (three attempts).
  - The application will scan the enrollee’s fingerprint and save the following:
    - Enrollment Administrator’s identifier;
    - User name extracted from the key;
    - Type of government picture ID;
    - Government picture ID number;
    - Public Key;
    - Private Key;
    - Fingerprint characteristics; and
    - Date of enrollment.

Prior to initiating the fingerprint enrollment, it is the responsibility of the Enrollment Administrator to ensure he/she knows the person being enrolled and that the person has the appropriate credentials with them (driver’s license, passport, etc.).
3.7.1 Pre-Fingerprint Enrollment

[Step 1] To begin the enrollment process, the Enrollment Administrator must first log into the www.ginnienet.net website, and enter their GinnieNET User ID and password. The GinnieNET On The Web Main Menu screen will then appear, like that shown below in Figure 56.

![Main Menu - Microsoft Internet Explorer](image)

**Figure 56 GinnieNET Main Menu Screen (w/Options)**

[Step 2] Note that before you can enroll a user you must first set up an account for that user. Click on the Main Menu link to the return to that Main Menu screen to perform that minor task.
3.7.2 Fingerprint Enrollment

[Step 1] From the GinnieNET Main Menu screen, click on the Fingerprint Enrollment screen link to begin the enrollment process.

[Step 2] Click on the down arrow adjacent to the 1. Select User ID field, then scroll through the menu options to locate the User ID targeted for enrollment.

[Step 3] Select desired user, then click on the screen’s <Continue> button to proceed to the next level screen.

[Step 4] Now, insert the Public Key disk and enter in the Public Certificate file name usercert.der. The Public Key disk is normally a floppy disk. Use the <Browse…> button to locate the desired key disk.

[Step 5] Once the Public Key file USRCERT.DER has been entered, click on the <Verify the Public Certificate> button. If the Public Key Certificate is verified, the user will be prompted to remove the Public Key (FIGURE 59). Click on the <OK> button to exit the screen.
Once the Public Key file USERCERT.DER has been entered, click on the <Verify the Public Certificate File> button to complete the action. If the Public Key Certificate is verified, the user will be prompted to remove the Public Key (FIGURE 59).

Click on the down arrow [▼] adjacent to the Select user id or login name. field, then select a User ID or login name.

Now, enter the password assigned to the Public Key diskette.

Enter the full path to the Private Certificate file (A:\privkey.der), or click on the screen’s <Browse…> button to locate that file (FIGURE 60).

The Private Certificate file is normally a floppy disk and is entered into the A:\ drive. You may click on the screen’s <Browse…> button to locate that key disk.

Click on the <Verify the Private Certificate File> button at the bottom of the screen. If the Private Key certificate is verified, the user will be prompted to remove the private key (FIGURE 61). Click on the <OK> button to exit the screen.
[Step 12] Select an option from the 2. Enroll Government Picture ID Type: field by clicking on the down-arrow [▼] adjacent to the field, and selecting that option. This item would generally be addressed as either a valid Driver’s License or a Passport.

[Step 13] Enter the enroll Picture ID number, then tab to, our place the cursor in, the 4. Note field to apply any additional comments. Once completed, simply click on the screen’s <Continue> button. The Security Officer Fingerprint Verification screen will then appear.

![Fingerprint Enrollment Screen](image)

**Figure 62 Fingerprint Enrollment Screen (w/Enroll Government Picture ID Option)**

[Step 14] On the new Security Officer Fingerprint Verification click on the <Verify> button to begin the fingerprint verification process.

![Security Officer Fingerprint Verification Screen](image)

**Figure 63 Security Officer Fingerprint Verification Screen**
[Step 15] The system will now ask for the Enrollment Officer’s is fingerprint (FIGURE 64).

![Verify Fingerprint Screen](image)

**FIGURE 64 VERIFY FINGERPRINTS SCREEN**

[Step 16] Now, click on the area labeled **Click here to capture fingerprint** to now capture the user’s fingerprint image. The fingerprint enrollment screen will then display.

[Step 17] The Enrollment Administrator must place the finger previously used to enroll in GinnieNET on the scanner pad, on the area shown below the screen’s Instructions field.

![Scan Fingerprint Screen](image)

**FIGURE 65 SCAN FINGERPRINT SCREEN (W/INSTRUCTIONS AREA)**
[Step 18] Scan the fingerprint and verify its capture, then click on the screen’s <Verify> button (FIGURE 67) to complete the fingerprint scanning action.

The fingerprint image will now be captured, and placed on the Fingerprint Enrollment Credentials screen, as shown on the following page in FIGURE 68.
Figure 68 Fingerprint Enrollment Credentials Screen (w/Captured Fingerprint Placement)

[Step 19] If the fingerprint capture is verified, click on the <Continue> key. The user will then be returned to the Fingerprint Enrollment Credentials screen.

[Step 20] On the Fingerprint Enrollment Credentials screen, the Security Officer must enter the security password then click on the <Continue> button.

Figure 69 Fingerprint Enrollment Credentials Screen (Security Officer ID Entry)
[Step 21] if the fingerprint is verified, the system will display a refreshed Fingerprint Enrollment screen displaying that fingerprint for the user to be enrolled.

![Fingerprint Enrollment Screen](image1)

**Figure 70 Fingerprint Enrollment Credentials Screen (w/Fingerprint Capture)**

[Step 22] Scan the fingerprint three (3) times, then click on the screen’s *Register* button. The system will register the fingerprint scan, and display a scan progress bar *(Area of Detail)* that will indicate the quality of that fingerprint capture *(Figure 71)*.

![Scan Fingerprint Screen](image2)

**Figure 71 Scan Fingerprint Screen (w/Capture Progress Bar)**
[Step 23] Scan each of the fingers in sequence, to correspond to the finger indicated on the Fingerprint Enrollment screen (highlighted in green). Then, click on the screen’s <Register> button complete the current action.

![Figure 72 Fingerprint Enrollment Scan Success Message Screen](image)

[Step 24] If the three fingerprints in the capture series match, the screen will display a “Finger scanned successfully.” screen message, as shown on the previous page in Figure 72.

If the fingerprints do not match, the user will click on the <OK> button (above) and return to [Step 22], beginning on page 20.

**NOTE:** Please note that the fingerprint capture shown in Figure 71 on the previous page, is in fact a deliberate depiction of only a partially-captured fingerprint image, which could be problematic and require a second capture attempt.

[Step 25] if the fingerprint is verified, the system will display a refreshed Fingerprint Enrollment screen displaying that fingerprint image for the user to be enrolled. If the fingerprint is correct, simply click on the <Continue> button. A process completion message screen will then display.
[Step 26] a system message with and display indicating that the fingerprint enrollment process has successfully been completed. Click on the screen’s <OK> button to exit the screen, and to complete the fingerprint enrollment process.
4.0 MAINTENANCE
4.0 MAINTENANCE

4.1 DOWNLOAD FINGERPRINT SOFTWARE

4.1.1 Other: Download Fingerprint Software
To utilize the fingerprint technology, users must have Windows XP, Windows Vista, Windows 7, Tablet PC, or Media Center Edition with a Pentium 233 MHz or higher processor and 256 MB of RAM, 45 MB of available hard disk space, access to Internet Explorer and an available USB Port.

4.1.2 M2SYS Accelerated Biometrics
The fingerprint technology uses a biometric system which does not store a copy of the fingerprint image. The software extracts the unique fingerprint pattern data from the image for the purpose of identification within a closed environment. It is impossible to recreate a fingerprint image from this data; therefore, there are no associated privacy risks.
M2SYS software is employed in application designed and/or utilized by the U.S. Army, U.S. Air Force, Dearman Systems, (in compliance with Homeland Security requirements surrounding the tracking and transportation of hazardous materials), Corrections Corporation of America, Kodak, Siemens, BAE Systems, and others.
Note: For full downloading instruction, please refer to Section 2.0.
5.0 NEW POOL PROCESSING—SINGLE FAMILY
5.0 NEW POOL PROCESSING–SINGLE FAMILY

The fingerprint enrollment process must be completed in order to use Communication functions for New Pool Processing in GinnieNET (see Maintenance).

5.1 POOL DETAIL INFORMATION

GinnieNET provides two(2) review options for reviewing Pool information. The user can browse through both summary and detail records individually, using functions within the Pool Details series on the Main Menu; or print copies of the Schedule of Pooled Mortgages Report (Form HUD 11706), and the Pool Status Report using functions located on the Reports menu.

[Step 1] To begin the process, the user will first log into the www.ginnienet.net website and enter their GinnieNET ID and password. The GinnieNET On The Web Main Menu screen will then display. This menu provides access to pool, mortgage, subscriber and summary information.

To access Pool Detail functions, step through the procedural flow described below. Select one of the options displayed within the New Pool Processing menu grouping.

- **Single-Family Pool Processing**: Multi-Family Pool Processing or HMBS Pool Processing.
- **Pool Detail**: Used for reviewing pool details.
- **Mortgage Detail**: Used for reviewing individual mortgage records.
- **Subscriber (FRB)**: Used for reviewing participant and position information.
- **Totals (Mortgage Summary)**: Selected to review a summary of mortgages included in a pool.

[Step 2] The pool number is the key identifier for locating records. The pool number is part of the File Transmission Number (FTN), digits 11 through 19 *counting in from the left.*

[Step 3] Use the following set of instructions to locate records in the Pool Detail, Mortgage Detail, FRB Subscriber and Totals (Mortgage Summary) screens.
The Pool Record provides a summary of information on the pool including FTN (File Transmission Number), FCN (File Certification Number), or FRN (File Rejection Number). It also displays Original Aggregate Amount (OAA), Rates, Dates, Term, and Total Number of Loans.

5.1.1 Search Form Elements

**TABLE 2 PDI SCREEN: SEARCH FORM ELEMENTS TABLE MATRIX**

<table>
<thead>
<tr>
<th><strong>FIELD NAME</strong></th>
<th><strong>DESCRIPTION</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Pool #</td>
<td>The Pool Number is entered by the user.</td>
</tr>
<tr>
<td>Issue Type</td>
<td>User selects an Issue Type from the list of Available Issue Type.</td>
</tr>
<tr>
<td>Pool Type</td>
<td>User selects a Pool Type from the list of Available Pool Types.</td>
</tr>
<tr>
<td>Issuer Number</td>
<td>Available Active Issuer IDs are retrieved from the system that is associated with the logged-in user (Custodian). The user has to select an Issuer ID to work with. Required.</td>
</tr>
<tr>
<td>Transfer Status</td>
<td>User selects the Transfer Status from the List of Available Transfer Status.</td>
</tr>
<tr>
<td>Issue Date</td>
<td>By Default, the Issue Date is the first of the current month. If Pool Number is not entered, then Issue Date has to be selected to narrow the search and to limit the number of records retrieved. If Pool Number is entered then Issue date will be ignored. Required*.</td>
</tr>
</tbody>
</table>

*Required field only on some conditions; see Description for Issue Date.

5.1.2 How to Search Pool Records

[Step 1] On the Search page, enter enough information to isolate the record(s) you wish to locate. The user may enter Pool Number, select Issue Type, Pool Type, select Issuer Number, Transfer Status and Issue Date. Also, note the advisory that and **Issuer Number must be selected to work with, and an Issue Date selected when a Pool Number is not entered.** The more information the user can enter, the more likely the resulting query will focus on the record item(s) you wish to view.

[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.
5.1.3 Pool Detail View

**NOTE:** The following restriction will apply: Custodians can only view Pool Detail records. This page is Read-Only.

[Step 1] Locate a pool record as described in the module on Search Form Elements. The Pool Detail screen, shown below in **FIGURE 77**, will then display.

![Pool Detail View Screen](image)

**FIGURE 77 POOL DETAIL VIEW SCREEN**

From this screen the user may access all of the following:

- The Mortgage Detail screen;
- The Subscriber screen;
- The Certification & Agreement – 11711B screen;
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View **TABLE 3**, shown on the following page, for a quick view of each of these directional (navigational) keys.
TABLE 3  POOL DETAIL VIEW SCREEN NAVIGATIONAL AIDS

<table>
<thead>
<tr>
<th>NAVIGATION SYMBOL</th>

<tr>
<td>&gt;</td>
<td>Click on this to the LAST pool record</td>
</tr>
</tbody>
</table>

**NOTE:** Clicking on the Return to Main Menu link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the Logout will take you out of GinnieNET.

### 5.2 Mortgage Detail Information

Individual mortgage records include detailed loan and payment date information.

#### 5.2.1 Search Form Elements

**TABLE 4  MDI SCREEN: SEARCH FORM ELEMENTS TABLE MATRIX**

<table>
<thead>
<tr>
<th>FIELD NAME</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pool #</td>
<td>The Pool Number is entered by the user.</td>
</tr>
</tbody>
</table>
| Issue Type   | Issue Type is always "X,M,C" for Single Family Pools and it is Default.  
Issue Type is always "X" for Multifamily Pools and it is Default.  
Issue Type is always "H" for HMBS Pools and it is Default. |
| Pool Type    | User selects a Pool Type from the list of Available Pool Types. |
| Mortgage #   | Mortgage Number is entered by the user. |
| Mortgage Type| User selects the Mortgage Type from the list of available Mortgage Type, i.e.  
FHA, RHS, VA, PIH |
| Transfer Status| User selects the Transfer Status from the List of Available Transfer Status. By Default, the Transfer Status is Not Selected, Posted, Certified or Rejected. |

*Required field only on some conditions; see Description for Issue Date.*

#### 5.2.2 How to Search Mortgage Records

**[Step 1]** On the Search page, enter enough information to isolate the record(s) you wish to locate. The user may enter Pool Number, select Issue Type, Pool Type, select Issuer Number, Transfer Status and Issue Date. Also, note the advisory that and **Issuer Number must be selected to work with, and an Issue Date selected when a Pool Number is not entered.** The more information the user can enter, the more likely the resulting query will focus on the record item(s) you wish to view.
[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.

5.2.3 Mortgage Detail View Screen

**NOTE:** The following restriction will apply: Custodians can only view Mortgage Detail records. This page is Read-Only.

[Step 1] Locate a mortgage record as described in the module on Search Form Elements. The Mortgage Detail screen will then display.

![Figure 78: Mortgage Detail View Screen](image)

From this screen the user may access all of the following:

- The Pool Detail screen;
- The Subscriber screen;
- The Certification & Agreement – 11711B screen;
- The Back to Search screen; and
- The Back to Search Results screen.
In addition, all of the following navigational keys will be available to the user as well. View Table 5, shown below, for a quick view of each of these directional (navigational) keys.

**Table 5 Serial Note View Screen Navigational Aids**

<td>Click on this to advance to the NEXT serial note record</td>
</tr>
<tr>
<td>&gt;</td>
<td>Click on this to advance to the LAST serial note record</td>
</tr>
</tbody>
</table>

**Note:** Clicking on the Return to Main Menu link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the Logout will take you out of GinnieNET.

### 5.3 Single-Family Serial Notes Schedule A

#### 5.3.1 Serial Notes-Schedule A

Schedule A is created on GinnieNET. The system generates the following fields:

(a) Serial unit number;
(b) Face amount of units; and
(c) Months from issue date.

The months from serial units are normally in units of 1 through 100 (beginning with 1). The system generates the number of units based on the pool principal amount.

#### 5.3.2 Search Form Elements

**Table 6 Serial Notes Schedule A: Search Form Elements Table Matrix**

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pool #</td>
<td>The Pool Number is entered by the user.</td>
</tr>
</tbody>
</table>

**Step 1** On the Search page, enter enough information to isolate the record(s) you wish to locate. The user can select by Pool Number.

**Step 2** Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.
5.3.3 Serial Note View Screen

**NOTE:** The following restriction will apply: Custodians can only view capitalism Serial Note Detail records. This page is Read-Only.

[Step 1] Locate a serial note record as described in the module on Search Form Elements. The Serial Note Detail screen will then display.

From this screen the user may access all of the following:

- The Pool Detail screen;
- The Mortgage Detail screen;
- The Subscriber screen;
- The Certification & Agreement – 11711B screen;
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View **TABLE 7**, shown on the following page, for a quick view of each of these directional (navigational) keys.
TABLE 7 SERIAL NOTE VIEW SCREEN NAVIGATIONAL AIDS

<table>
<thead>
<tr>

<td>Available Active Issuer IDs are retrieved from the system that is associated with the logged-in user (Custodian). The user has to select an Issuer ID to work with. This is a required field.</td>
</tr>
</tbody>
</table>

*Required field only on some conditions; see Description for Issue Date.*
5.4.2 How to Search Draw Records

[Step 3] On the Search Page, enter enough information to isolate the Draw record(s) you want to locate. You can enter Pool Number, select Pool Type, enter Draw Number and/or Project Number, select Issuer ID, Issue Date, Transfer Status. **Issuer ID has to be selected to work with. Issue Date has to be selected when Pool Number is not entered.** The more information you enter, the more likely that the resulting query will focus on the Draw record(s) you want to view. Remember that the **Issue Type for Multifamily Pools is always "X".**

[Step 4] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.

5.4.3 Construction Loan Draw View Screen

**NOTE:** The following restriction will apply: Custodians can only view Construction Loan Draw records. This page is Read-Only.

[Step 1] Locate a construction loan draw record as described in the module on Search Form Elements. The Construction Loan Draw Detail screen will then display.
From this screen the user may access all of the following:

- The Pool Detail screen;
- The Mortgage Detail screen;
- The Subscriber screen;
- The Certification & Agreement – 11711B screen;
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View Table 9, shown below, for a quick view of each of these directional (navigational) keys.

### Table 9 CLD View Screen Navigational Aids

</tr>
</tbody>
</table>

*Required field only on some conditions; see Description for Issue Date.*

### 5.5.2 How to Search FRB Subscriber Records

**[Step 1]** On the Search Page, enter enough information to isolate the FRB Subscriber record(s) you want to locate. You can enter Pool Number, select Pool Type, enter Draw Number and/or Project Number, select Issuer ID, Issue Date, Transfer Status. **Issuer ID has to be selected to work with. Issue Date has to be selected when Pool Number is not entered.** The more information you enter, the more likely that the resulting query will focus on the Draw record(s) you want to view. Remember that the **Issue Type for Multifamily Pools is always "X"**.

**[Step 2]** Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, Ginnie\textsc{NET} will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, Ginnie\textsc{NET} will switch the view directly to the Pool Details screen.
5.5.3 FRB Subscriber View Screen

**NOTE:** The following restriction will apply: Custodians can only view FRB Subscriber records. This page is Read-Only.

The FRB Subscriber screen for the various pool types will thus default to FRBNY as the investor for each pool. The FRB Subscriber screen must also show the FRB clearing bank account information for each member of the Federal Reserve Banks accepting delivery of either the complete pool or any portion of the pool. If more than one investor has purchased a beneficial ownership share in a pool, which results in a number of different clearing banks designated to take delivery, the FRB Subscriber screen must be completed for all such clearing banks with the complete and accurate account information for each one.

**[Step 1]** Locate an FRB Subscriber record as described in the module on Search Form Elements. The FRB Subscriber Detail screen will then display.

From this screen the user may access all of the following:

- The Pool Detail screen;
- The Mortgage Detail screen;
- The Subscriber screen;
- The Certification & Agreement – 11711B screen;
- The Back to Search screen; and
- The Back to Search Results screen.
In addition, all of the following navigational keys will be available to the user as well. View Table 11, shown below, for a quick view of each of these directional (navigational) keys.

5.6.2 How to Search Form HUD 11711B — Certification and Agreement Records

[Step 1] On the Search Page, enter enough information to isolate the Form HUD 11711B — Certification and Agreement record(s) you want to locate. You can enter Pool Number, select Pool Type, enter Draw Number and/or Project Number, select Issuer ID, Issue Date, Transfer Status. **Issuer ID has to be selected to work with. Issue Date has to be selected when Pool Number is not entered.** The more information you enter, the more likely that the resulting query will focus on the Draw record(s) you want to view. Remember that the **Issue Type for Multifamily Pools is always "X"**.

[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.

5.6.3 Certification And Agreement View Screen

**NOTE:** The following restriction will apply: Custodians can only view FRB Subscriber records. This page is Read-Only.

The FRB Subscriber screen for the various pool types will thus default to FRBNY as the investor for each pool. The FRB Subscriber screen must also show the FRB clearing bank account information for each member of the Federal Reserve Banks accepting delivery of either the complete pool or any portion of the pool. If more than one investor has purchased a beneficial ownership share in a pool, which results in a number of different clearing banks designated to take delivery, the FRB Subscriber screen, must be completed for all such clearing banks with the complete and accurate account information for each one

[Step 2] Locate an FRB Subscriber record as described in the module on Search Form Elements. The FRB Subscriber Detail screen will then display.

![Figure 82: Form HUD 11711B View Screen](image-url)
From this screen the user may access all of the following:

- The Pool Detail screen;
- The Mortgage Detail screen;
- The Subscriber screen;
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View TABLE 13, shown below, for a quick view of each of these directional (navigational) keys.

*Required field only on some conditions; see Description for Issue Date.*

6.1.2 How to Search Mortgage Records

[Step 3] On the Search Page, enter enough information to isolate the Form you want to locate. You can enter Pool Number, select Issue Type, Pool Type, enter Mortgage Number, select Issuer Number, Edit Status, Transfer Status and Issue Date. **Issuer Number has to be selected to work with. Issue Date has to be selected when Pool Number is not entered.** The more information you enter, the more likely that the resulting query will focus on the Draw record(s) you want to view.

[Step 4] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.
6.2 Mortgage Details View Screen

NOTE: The following restriction will apply: Custodians can only view Mortgage Detail records. This page is Read-Only.

[Step 1] Locate a Mortgage Detail record as described in the module on Search Form Elements. The Mortgage Detail View screen will then display.

![Mortgage Detail View Screen](image)

**Figure 83 Mortgage Detail View Screen**

From this screen the user may access all of the following:

- The Pool Detail screen;
- The Subscriber Detail screen;
- The Certification & Agreement screen;
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View **Table 15**, shown below, for a quick view of each of these directional (navigational) keys.
6.3 SINGLE FAMILY SERIAL NOTES—SCHEDULE A

6.3.1 Serial Notes—Schedule A

Schedule A is created on GinnieNET. The system will generate the following fields:

a) Serial unit number;
b) Face amount of units; and
c) Months from issue date.

The months from serial units are normally in units of 1 through 100 (beginning with 1). The system generates the number of units based on the pool principal amount.

6.3.2 Search Form Element

Table 16 SERIAL NOTES SCHEDULE A SCREEN: SEARCH FORM ELEMENTS TABLE MATRIX

<td>By Default, the Issue Date is the first of the current month. If Pool Number is not entered, then Issue Date has to be selected to narrow the search and to limit the number of records retrieved. Required*.</td>
</tr>
<tr>
<td>Transfer Status</td>
<td>User selects the Transfer Status from the List of Available Transfer Status. By default, the Transfer Status is New Pool.</td>
</tr>
</tbody>
</table>

*Required field only on some conditions; see Description for Issue Date.

6.5.2 How to Search Form Draw Records

[Step 1] On the Search Page, enter enough information to isolate the Form you want to locate. You can enter Pool Number, select Pool Type, enter Draw Number and/or Project Number, select Issuer ID, Issue Date, Transfer Status. Issuer ID has to be selected to work with. Issue Date has to be selected when Pool Number is not entered. The more information you enter, the more likely that the resulting query will focus on the Draw record(s) you want to view. Remember that the Issue Type for Multifamily Pools is always "X".

[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.
6.6 Construction Loan Draws View Screen

NOTE: The following restriction will apply: Custodians can only view Construction Loan Draw records. This page is Read-Only.

Construction Loan Draws are submitted during the life of the CL/CS that draws down on the mortgage amount of the project. Once the full mortgage amount is drawn, the project will convert from a Construction Loan security to a Project Loan security.

[Step 1] Locate a Construction Loan Draw record as described in the module on Search Form Elements. The Construction Loan Draw Detail screen will then display.

From this screen the user may access all of the following:

- The Pool Detail screen;
- The Mortgage Detail screen;
- The Subscriber Detail screen;
- The Certification & Agreement - 11711B screen;
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View Table 19, shown below, for a quick view of each of these directional (navigational) keys.

*Required field only on some conditions; see Description for Issue Date.
6.7.2 How to Search Form Draw Records

[Step 1] On the Search Page, enter enough information to isolate the record(s) you want to locate. Enter enough information to isolate the record(s) you want to locate. You can enter Pool Number, select Issue Type, Pool Type, select Issuer Number, Edit Status, Transfer Status and Issue Date. Issuer Number has to be selected to work with. Issue Date has to be selected when Pool Number is not entered. The more information you enter, the more likely that the resulting query will focus on the Draw record(s) you want to view. Remember that the Issue Type for Multifamily Pools is always "X".

[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.

6.8 FRB SUBSCRIBER VIEW SCREEN

NOTE: The following restriction will apply: Custodians can only view FRB Subscriber records. This page is Read-Only.

The FRB Subscriber screen for the various pool types will thus default to FRBNY as the investor for each pool. The FRB Subscriber screen must also show the FRB clearing bank account information for each member of the Federal Reserve Banks accepting delivery of either the complete pool or any portion of the pool. If more than one investor has purchased a beneficial ownership share in a pool, which results in a number of different clearing banks designated to take delivery, the FRB Subscriber screen, must be completed for all such clearing banks with the complete and accurate account information for each one.

[Step 1] Locate an FRB Subscriber record as described in the module on Search Form Elements. The FRB Subscriber screen will then display.

![FRB Subscriber View Screen](image_url)
From this screen the user may access all of the following:

- The Pool Detail screen;
- The Mortgage Detail screen;
- The Subscriber Detail screen;
- The Certification & Agreement - 11711B screen;
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View Table 21, shown below, for a quick view of each of these directional (navigational) keys.

</table>

**Note:** Clicking on the Return to Main Menu link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the Logout will take you out of GinnieNET.
7.0 CERTIFICATION
7.0 CERTIFICATION

The fingerprint enrollment process must be completed in order to use Communication functions for New Pool Processing in GinnieNET (see section on Maintenance).

7.1 FINAL CERTIFICATION

In order to electronically Final Certify a pool through GinnieNET On the Web, the pool must have been initially certified through GinnieNET and issued on or after May 1, 1998.

The pool must not have been transferred prior to Final Certification; except for an immediate issuance transfer transaction, where the pool is transferred immediately after the pool is issued.

The Issuer must retrieve the schedule of Pooled Mortgages from the GinnieNET On the Web network, complete the Final Certification and electronically resubmit the pool back to the network. Issuers and document Custodians will be required to maintain a copy of the Schedule of Pooled Mortgages with the completed Final Certification.

To Final Certify a pool, the original pool record must be retrieved from the Network by the Issuer with a status of Certified before Mortgage Details data can be viewed or edited. Once the Issuer views or edit the pool(s) it can be transmitted to the Custodian for Final Certification.

7.2 POOL DETAILS

The Pool Details menu provides access to pool, mortgage, subscriber and summary information. To access the Pool Detail functions, step through the following procedural flow:

**NOTE:** The following restriction will apply: Custodians can only view records. This page is Read-Only.

[Step 1] To begin the process, the user will first log into the www.ginnienet.net website and enter their GinnieNET ID and password. The GinnieNET On The Web Main Menu screen will then display. This menu provides access to pool, mortgage, subscriber and summary information.
[Step 2] Click on the screen’s **Data Entry/Review** link.

![Image](image-url)

**Figure 89 GinnieNET On The Web Main Menu Screen (w/Certifications Option)**

[Step 3] Now, select one of the two (2) options shown under that certifications link. This could either be the **Pool Detail** or **Mortgage Detail** options.

From this screen the user may access all of the following:

- The **Pool Detail** screen: Used for reviewing Pool details.
- The **Mortgage Detail** screen: Used for reviewing individual mortgage records.
- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View **Table 24**, shown below, for a quick view of each of these directional (navigational) keys.

<table>
<thead>
<tr>
<th><strong>Navigation Symbol</strong></th>
<th><strong>Description</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;&lt;</td>
<td>Click on this to advance to the BEGINNING of the Pool Details record for the pool</td>
</tr>
<tr>

</tr>
<tr>
<td>&gt;&gt;</td>
<td>Click on this to advance to the NEXT Pool Details record</td>
</tr>
<tr>
<td>&gt;</td>
<td>Click on this to advance to the LAST Pool Details record</td>
</tr>
</tbody>
</table>

**Note:** Clicking on the **Return to Main Menu** link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the **Logout** will take you out of GinnieNET.
7.3 **POOL DETAILS (11705)**

In order to electronically Final Certify a pool through Ginnie\(\text{NET}\), the pool must have been initially certified through Ginnie\(\text{NET}\) and issued on or after May 1, 1998. The pool must not have been transferred prior to Final Certification; except for an immediate issuance transfer transaction where the pool is transferred immediately after the pool is issued. The Issuer must retrieve the schedule of Pooled Mortgages from the Ginnie\(\text{NET}\) network, complete the Final Certification and electronically resubmit the pool back to the network. Issuers and document Custodians will be required to maintain a copy of the Schedule of Pooled Mortgages with the completed Final Certification. To Final Certify a pool, the original pool record must be retrieved from the Network by the Issuer with a status of Certified before Mortgage Details data can be viewed or edited. Once the Issuer views or edit the pool(s) it can be transmitted to the Custodian for Final Certification.

7.3.1 **Search Form Element**

The pool number is the key identifier for locating records. The pool number is part of the Final Certification File Transmission Number (FC-FTN) digits 11 through 19 counting in from the left and Issuer/Custodian Transfer Recertification (RCI/RCC FTN), digits 11 through 19 counting in from the left.

**NOTE:** The following restriction will apply: Custodians can only view records. This page is Read-Only.

<table>

</tbody>
</table>

**Note:** Clicking on the **Return to Main Menu** link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the **Logout** will take you out of GinnieNET.

#### 7.7 Issuer/Custodian (Transfer) Recertification

Recertifications submitted using **GinnieNET** would be submitted at a pool level. Ginnie Mae will no longer require the submission of the Schedule of Pooled Mortgages to Ginnie Mae’s Pool Processing Agent for pools recertified through **GinnieNET On The Web**. However, Issuers and document Custodians will continue to be required to maintain a copy of the Recertification, including the Schedule of Pooled Mortgages with the completed certification.

**Recertification:** RCI-FCN (Recertification Issuer Final Certification File Transmission Number), RCC-FCN (Recertification Custodian Final Certification File Certification Number), RCI-FRN (Recertification Issuer Final Rejection File Transmission Number) or RCC-FRN (Recertification Custodian Final Rejection File Certification Number). It also displays Outstanding Aggregate Amount (OAA), Rates, Dates, Term, and Total Number of Loans.

7.7.2 How to Search (Transfer) Recertification Records

[Step 1] On the Search Page, enter enough information to isolate the record(s) you want to locate. Enter enough information to isolate the record(s) you want to locate. You can enter Pool Number, select Issue Type, Pool Type, Custodian#, enter Recertification Date and Transfer Status. The more information you enter, the more likely that the resulting query will focus on the Draw record(s) you want to view. Remember that the Issue Type for Multifamily Pools is always "X".

[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.
**Figure 93 GinnieNet On The Web Main Menu Screen (w/Certifications—Common Links)**

**Note:** The following restriction will apply: Custodians can only view (Transfer) Recertification records. This page is Read-Only.

**[Step 1]** To begin the process, the user will first log into the [www.ginnienet.net](http://www.ginnienet.net) website and enter their GinnieNet ID and password. The GinnieNet On The Web Main Menu screen will then display. This menu provides access to pool, mortgage, subscriber and summary information.

**[Step 2]** Click on the screen’s Certifications link.

**[Step 3]** Now, click on the Common link.

**[Step 4]** Finally, click on the Issuer (Transfer) Recertification link to access this menu item.

**Figure 94 Issuer (Transfer) Recertification Screen**
[Step 5] **OR**, click on the **Custodian (Transfer) Recertification** link to access the below screen.

![Custodian (Transfer) Recertification Screen](image)

**Figure 95 Custodian (Transfer) Recertification Screen**

From this screen the user may access all of the following:

- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View **Table 30**, shown below, for a quick view of each of these directional (navigational) keys.

**NOTE**: Clicking on the **Return to Main Menu** link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the **Logout** will take you out of GinnieNET.
7.8 **HUD 11708 Request for Release of Documents**

The Fingerprint Enrollment process must be completed in order to use Communication functions for New Pool Processing in GinnieNET (see Maintenance). GinnieNET gives users the ability to receive and view the following Investor report:

- HUD 11708.

![GinnieNET On The Web Main Menu Screen](image)

**FIGURE 96 GinnieNET On The Web Main Menu Screen (For HUD 11708)**

An executed Form HUD 11708 can be transmitted through GinnieNET to the Document Custodian.

### 7.8.1 Search Form Element

</tr>
</tbody>
</table>
7.8.2 How to Search HUD 11708 Records

[Step 1] On the Search Page, enter enough information to isolate the record(s) you want to locate. Enter enough information to isolate the record(s) you want to locate. You will need to enter a Report month or year, and for Report Type, ensure that the Both option is selected.

[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.

**NOTE:** The following restriction will apply: Custodians can only view Mortgage Detail records. This page is Read-Only.

The Form HUD 11708—Request for Release of Documents, lists the following reasons an Issuer might be requesting a release of loan documents by release reason codes:

1. Mortgage paid in full;
2. Repurchase of Delinquent Loan;
3. Foreclosure – With Claim Payment;
4. Loss Mitigation;
5. Substitution; and
6. Other.
From this screen the user may access all of the following:

- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View Table 32, shown on the following page, for a quick view of each of these directional (navigational) keys.

</table>

**NOTE**: Clicking on the Return to Main Menu link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the Logout will take you out of GinnieNET.

### 7.9 DOCUMENT CUSTODIAN TRANSFERS

Effective October 1, 2002, Ginnie Mae mandated that all Document Custodian Transfer Requests be submitted via GinnieNET on the Web.

The revised options for a Document Custodian Transfer Request are as follows:

**Complete Document Custodian Transfer Request**

An Issuer will select this option to execute a Complete Transfer of its Ginnie Mae portfolio from one document Custodian to another document Custodian. The Issuer is required to submit a pool list. All existing pools/loan packages on Ginnie Mae’s system (file) for that Issuer number will be transferred to the new document Custodian identification number. Recertifications for all transferred pools are due twelve (12) months from the effective date of transfer.

**Partial Document Custodian Transfer Request**

An Issuer will select this option to execute a Partial Transfer of pools/loan packages for its Ginnie Mae portfolio from an old document Custodian to the new document Custodian. A pool list must be attached with this request and only the pools identified will be transferred to the new document Custodian identified. All existing document Custodians must be identified for this request with an attached pool list for each existing document Custodian. Recertifications for all transferred pools are due twelve (12) months from the effective date of transfer.
**Complete Document Custodian Merger Request**

An Issuer will select this option to execute a Complete Merger Related Transfer of its Ginnie Mae portfolio when a transfer is within the same Document Custodian Corporate Institution (the Document Custodian Identification Number will change). The Issuer is required to submit a pool list. All existing pools/loan packages on Ginnie Mae’s system (file) for that Issuer number will be transferred to the new document Custodian identification number. Ginnie Mae does not require the Recertification of the reassigned (transferred) pools for a merger.

**Partial Document Custodian Merger Request**

An Issuer will select this option to execute a Partial Merger Related Transfer of pools/loan packages of its Ginnie Portfolio when a transfer if within the same Document Custodian Corporate Institution (the Document Custodian Identification Number will change). A pool list must be attached with this request and only the pools identified (on the pool list) will be transferred to the new document Custodian. All existing document Custodians must be identified for this request with an attached pool list for each existing document Custodian. Ginnie Mae does not require the Recertification of the reassigned (transferred) pools for a merger.

### 7.9.1 Search Form Element

**TABLE 33 DOCUMENT CUSTODIAN TRANSFERS SCREEN: SEARCH FORM ELEMENTS TABLE MATRIX**

<table>
<thead>
<tr>

</tbody>
</table>

### 7.9.2 How to Search Document Custodian Transfers Records

[Step 1] On the Search Page, enter enough information to isolate the record(s) you want to locate. Enter enough information to isolate the record(s) you want to locate. You can select Issuer, Transfer Type, Transfer Date Month/Year, Regulating Authority and Transfer Status. The more information you enter, the more likely that the resulting query will focus on the record(s) you wish to view.

[Step 2] Click on the `<Search>` button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found by the search query, GinnieNET will switch the view directly to the Pool Details screen.
NOTE: The following restriction will apply: Custodians can only view records. This page is Read-Only.

![Document Custodian Transfer Screen](image)

**Figure 98 Document Custodian Transfers Information Screen**

From this screen the user may access all of the following:

- The Back to Search screen; and
- The Back to Search Results screen.

In addition, all of the following navigational keys will be available to the user as well. View Table 34, shown on the following page, for a quick view of each of these directional (navigational) keys.

<table>
<thead>
<tr>
<th>Navigation Symbol</th>
<th>Description</th>
</tr>

<tr>
<td>&gt;&gt;</td>
<td>Click on this to advance to the NEXT Transfer record</td>
</tr>
<tr>
<td>&gt;</td>
<td>Click on this to advance to the LAST Transfer record</td>
</tr>
</tbody>
</table>

**NOTE:** Clicking on the Return to Main Menu link in the right-hand corner of the screen will return the user to the previous Main Menu page, while clicking on the Logout will take you out of GinnieNET.
8.0 COMMUNICATIONS
8.0 **HOST COMMUNICATIONS MENU OPTION**

For access to the functions listed in the Host Communications window, it is mandatory to successfully complete the Fingerprint Verification process. The process is the same for each function and is outlined below.

![GinnieNET On The Web Main Menu Screen](image.png)

**FIGURE 99 GinnieNET On The Web Main Menu Screen (W/Communications Menu Options)**

8.1 **HOST COMMUNICATIONS**

1. **Custodian Communications:**
   - Certify Pool;
   - Reject Pool.

2. **Certifications Communications:**
   - Certify Final Certification;
   - Reject Final Certification;
   - Certify Recertification;
   - Reject Recertification;
   - Certify Document Custodian Transfer/Merger;
   - Reject Document Custodian Transfer/Merger;
   - Acknowledge HUD 11708 (Document Release Form);
   - Return HUD 11708 (Document Release Form);
   - Certify HMBS Final Certification; and
   - Reject HMBS Final Certification.
8.2 **Fingerprint Verification**

Upon initialization of a pool communications function, the system displays the following messages in preparation for verifying a user’s signature.

**[Step 1]** On the Fingerprint Verification screen, click on the down-arrow [▼] adjacent to the Select User ID: field and select a desired User ID, then click on the <Continue> button.

![Fingerprint Verification Screen (Select User ID)](image)

**[Step 2]** On the refreshed Fingerprint Verification screen, click on the <Verify Fingerprint> button.

![Fingerprint Verification Screen (Verify Fingerprint)](image)

**[Step 3]** Now, click on the screen’s <Click here to capture fingerprint> icon button to capture your fingerprint.
[Step 4] Scan your fingerprint using the M2SYS scanner.

![Scan Fingerprint Screen]

[Step 5] Scan your fingerprint and click on the <Verify Fingerprint> button.

![Verify Fingerprint Screen]

[Step 6] If the fingerprint is verified by the system, simply click on the <Continue> button.

![Fingerprint Verification Screen (w/Fingerprint Capture)]
[Step 7] On the refreshed Fingerprint Verification screen, the User ID: field will be pre-populated. Simply enter your assigned RSA password and click on the screen’s <Submit> button.

[Step 8] Once the verification process is completed, the system will refresh and display this Transmission Review screen. This record indicates whether or not your request was executed successfully and provides the date and time of submission and the FTN number generated upon successful transmission to the network.

[Step 9] Click on the screen’s <Print> button to print the current page, or click on the Return to Main Menu link in the right-hand corner of the screen to return to the Main Menu. The user may also click on the Logout link to exit out of GinnieNET completely.

NOTE: After each successful transmission to the network a notification indicating activity on the GinnieNET Server/Network is generated and sent by fax and posted on eNotification to the corresponding users.
8.3 **CUSTODIAN COMMUNICATIONS**

To gain access to the functions in the Host Communications window it is necessary to complete the Fingerprint Verification process. The process is the same for each function and is outlined below.

### 8.3.1 Host Communications Menu Option

(1) **Custodian Communications:**

- Certify Pool;
- Reject Pool.

### 8.3.2 File Transmission Number

- FTN (Final Certification File Transmission Number);
- FCN (Final Certification File Certification Number);
- FRN (Final Certification File Rejection Number).

A File Transmission Number (FTN), assigned by the system at the time a pool is transmitted and used to identify pools on the Network. After pool data is verified, a FTN is added to the pool record. The FTN becomes the tracking number for the pool and is displayed on the pool detail record and forms 11705 and 11706.

The FTN is a combination of 32 digits and characters, and is shown as a single unit (string). The FTN is broken down as follows:

1977 000123 152020 XSF 050599 095732 9

- The first four (4) digits (1977) represent the Issuer Number and are always the same.
- The next six (6) digits (000123) represent the Custodian Number.
- The next six (6) digits (152020) represent the Pool Number.
- The next three (3) characters (XSF) indicate the Issue and Pool Types.
- The next six (6) digits (050599) indicate the date that the pool was sent to the Network.
- The next (6) six digits (095732) indicate the time the pool was sent to the Network.
- The last digit “9” is a "check" digit for the communications session.
8.4 Pool Certify/Reject

8.4.1 Custodian Communications Pool Certify/Reject

[Step 1] Click on the Custodian Communications link from the Host Communications menu. The Custodian Communications screen will then displayed, like that shown in Figure 108.

![Host Communications Screen: Custodian Communications Option](image)

[Step 2] Now, click on the Select Pools to Certify or Select Pools to Reject link to begin the pool transmission process.

![Host Communications Selections Screen (I)](image)

The Select Pool for Initial Certification screen (Figure 109) will then display, and will contain information for pools that have been sent by the Issuer and that are now available for Certification or Rejection.
[Step 3] Click on the right-facing double-arrow icon [>>] to select any of the pools shown.

[Step 4] To select a single pool, identifying the line item by clicking on the checkbox [✓] to the left of the selection, and clicking on the single-arrow icon [>] to move the pool to the selected pool column.
Once the pools have been selected by the user, the pools should now appear in the screen’s **Selected Pools** column.

**[Step 5]** Click on the **<OK>** button to continue to the next screen.

**[Step 6]** Now, click on the **<Submit>** button to initialize the Fingerprint Verification process.

**Figure 112  HOST COMMUNICATIONS SELECTIONS (POOLS TO BE CERTIFIED ENTRIES)**

**[Step 7]** Complete the Fingerprint Verification process as described in the earlier section on Fingerprint Verification (see Section 3.7).

**[Step 8]** Once the verification process is complete, the system will then display the following the Transmission Review screen.

**Figure 113  GINNIE.NET HOST COMMUNICATIONS RESULT REPORT (FOR JOB NUMBER 2025)**

**[Step 9]** This record indicates whether or not your request was executed successfully and will provide the date and time of submission and FCN/FRN number generated upon successful transmission to the network.

**[Step 10]** To either print the screen, or to return to the Main Menu, simply click on either link in the top right-hand corner of the screen.

**NOTE:** After each successful transmission to the network, a notification indicating activity on the GinnieNET Server/Network is generated and sent by fax and posted on eNotification to the corresponding users.

This record indicates whether or not your request was executed successfully and provides the date and time of submission and the FCN/FRN number generated upon successful transmission to the network.
8.5 **CERTIFICATIONS**

To gain access to the functions in the Host Communications window it is necessary to complete the Fingerprint Verification process. The process is the same for each function and is outlined below.

### 8.5.1 Host Communications Menu Option

- Certify Final Certification
- Reject Final Certification
- Certify Recertification
- Reject Recertification
- Certify Document Custodian Transfer/Merger
- Reject Document Custodian Transfer/Merger
- Acknowledge HUD 11708 (Document Release Form)
- Return HUD 11708 (Document Release Form)
- Certify Final Certification (HMBS)
- Reject Final Certification (HMBS)

### 8.5.2 File Certification or Rejection Number (FCN/FRN)

- A File Transmission Number (FC-FTN, RCI-FTN or RCC-FTN), is assigned by the system at the time a pool is transmitted, is used to identify pools on the Network.
- After pool data is certified a FC-FCN, RCI-FCN or RCC-FCN is added to the pool record or after pool data is rejected a FC-FRN, RCI-FRN or RCC-FRN is added.
- The file Certification or Rejection tracking number for the pool is displayed on the pool detail record and form HUD 11706.

**FINAL CERTIFICATION**

- FC-FTN (Final Certification File Transmission Number);
- FC-FCN (Final Certification File Certification Number);
- FC-FRN (Final Certification File Rejection Number).

**RECERTIFICATION**

- RCI-FTN (Recertification Issuer Final Certification File Transmission Number);
- RCC-FCN (Recertification Custodian Final Certification File Certification Number);
- RCI-FRN (Recertification Issuer Final Rejection File Transmission Number);
- RCC-FRN (Recertification Custodian Final Rejection File Certification Number).

The FC-FTN/FC-FCN is a combination of thirty-two (32) digits and characters, and is usually shown as a single unit (string). The FC-FTN/FC-FCN is broken down as follows:

```
1977 000123 152020 XSF 050599 095732 9
```
• First four (4) digits (1977) represent the Issuer Number and are always the same.
• Next six (6) digits (000123) represent the Custodian Number.
• Next six (6) digits (152020) represent the Pool Number.
• Next three (3) characters (XSF) indicate the Issue and Pool Types.
• Next six (6) digits (050599) indicate the date pool was sent to the Network.
• Next six (6) digits (095732) indicate the time the pool was sent to the Network.
• The last digit “9” is a "check" digit for the communications session.

8.6 **FINAL CERTIFICATION**

The Issuer must retrieve the schedule of Pooled Mortgages from the *GinnieNET* network, complete the Final Certification and electronically resubmit the pool back to the network. Issuers and document Custodians will be required to maintain a copy of the Schedule of Pooled Mortgages with the completed Final Certification.

To Final Certify a pool, the original pool record must be retrieved from the Network by the Issuer with a status of Certified before Mortgage Details data can be viewed or edited. Once the Issuer views or edit the pool(s) it can be transmitted to the Custodian for Final Certification.

### 8.6.1 Host Communications Menu Option

[Step 1] Click on the **Certifications Communications** link from the Host Communications menu. The **Certifications Communications** screen will then displayed, like that shown below in **FIGURE 114**.

![FIGURE 114 CERTIFICATIONS COMMUNICATIONS SCREEN](image-url)
[Step 2] Click on the Select Pools to Certify or Select Pools to Reject link to begin the pool transmission process.

![Select Pools to Certify or Select Pools to Reject](image)

**Figure 115 Host Communications Selections Screen (II)**

The Pool Selected from the Final Certification screen is displayed, and that contains information for pools that have been sent by the Issuer and that are now available for Certification or Rejection.

![Select Pool for Initial Certification Screen](image)

**Figure 116 Select Pool for Initial Certification Screen**

[Step 3] Click on the right-facing double-arrow icon [>>] to select any of the pools shown.

![Select Pool for Initial Certification Screen (Available Pools Column)](image)

**Figure 117 Select Pool for Initial Certification Screen (Available Pools Column)**
[Step 4] To select a single pool, identifying the line item by clicking on the checkbox[✔] to the left of the selection, and clicking on the single-arrow icon[▶] to move the pool to the selected pool column.

![Select Pool for Initial Certification Screen](image)

**Figure 118 Select Pool for Initial Certification Screen (Selected Pools Column)**

Once the pools have been selected by the user, the pools should now appear in the screen’s **Selected Pools** column.

[Step 5] Click on the <OK> button to continue to the next screen.

[Step 6] Now, click on the <Submit> button to initialize the Fingerprint Verification process.

![Host Communications Selections](image)

**Figure 119 Host Communications Selections (Pools To Be Certified Entries)**

[Step 7] Complete the Fingerprint Verification process as described in the earlier section on Fingerprint Verification (see Section 3.7).

[Step 8] Once the verification process is complete, the system will then display the following the Transmission Review screen.
Figure 120

**GINNIE NET HOST COMMUNICATIONS RESULT REPORT (FOR JOB NUMBER 2025)**

**[Step 9]** This record indicates whether or not your request was executed successfully and will provide the date and time of submission and FCN/FRN number generated upon successful transmission to the network.

**[Step 10]** To either print the screen, or to return to the Main Menu, simply click on either link in the top right-hand corner of the screen.

**Note:** After each successful transmission to the network, a notification indicating activity on the GinnieNET Server/Network is generated and sent by fax and posted on eNotification to the corresponding users.

This record indicates whether or not your request was executed successfully and provides the date and time of submission and the FCN/FRN number generated upon successful transmission to the network.

### 8.7 DOCUMENT CUSTODIAN TRANSFER/MERGER

- Document Custodian Transfers, could be a Complete Transfer, Partial Transfer, Complete Merger or a Partial Merger.

- For Complete Document Custodian Transfers or Merger, the Issuer is required to submit a completed pool list.

- For Partial Document Custodian Transfer or Merger, the Issuer is required to submit a completed pool list. For the new Document Custodian, previous Custodian(s) and/or existing Custodian(s).

- The Issuer can enter an Effective Date of Transfer any day of the month. The Issuer is required to enter this date.

- For Partial document Custodian Transfers and Mergers, the pool list will be validated by the Pool Processing Agent. Pools will be transferred based on this list. If there are any discrepancies with pool numbers (pool number not found, pool number does not belong to the Issuer, inactive pool), the pool in question would be rejected in oppose to the entire request being rejected. The rejected pools would be identified on the GinnieNET confirmation, which is currently faxed to Issuer.

For example: (400) pools are requested to be transferred for a Partial Document Custodian Transfer, (2) pools do not belong to the Issuer, the (398) pools are processed and the (2) pools are rejected and identified as rejects on the confirmation.

**Note:** The Issuer is responsible to resubmit the two (2) rejected pools (if necessary) as a separate transfer request.
8.7.1 Host Communications Menu Option

[Step 1] Click on the **Certifications Communications** link from the Host Communications menu. The **Certifications Communications** screen will then displayed, like that shown below in **Figure 121**.

![Figure 121 Certifications Communications Screen](image)

**FIGURE 121 CERTIFICATIONS COMMUNICATIONS SCREEN**

[Step 2] Click on the Select Transfer/Merger Requests to Submit or Select Transfer/Merger Requests to Delete link—shown to the right of the screen—to begin the pool transmission process. The **Select Transfer/Merger Requests to Submitted (Pool Send)** screen will then display, and will contain information for pools that have passed Ginnie Mae Edits, and which are now available for transmission.

![Figure 122 Select Transfer/Merger Requests to Submitted Screen](image)

**FIGURE 122 SELECT TRANSFER/MERGER REQUESTS TO SUBMITTED SCREEN**
[Step 3] Click on the right-facing double-arrow icon [>] to select any of the pools shown.

![Figure 123: Select Pool for Initial Certification Screen (Available Pools Column)]

[Step 4] To select a single pool, identifying the line item by clicking on the checkbox [☑] to the left of the selection, and clicking on the single-arrow icon [>] to move the pool to the selected pool column.

![Figure 124: Select Pool for Initial Certification Screen (Selected Pools Column)]

Once the pools have been selected by the user, the pools should now appear in the screen’s Selected Pool Key column.

[Step 5] Click on the <OK> button to continue to the next screen.

[Step 6] Now, click on the <Submit> button to initialize the Fingerprint Verification process.
**[Step 7]** Complete the Fingerprint Verification process as described in the earlier section on Fingerprint Verification (see Section 3.7).

**[Step 8]** Once the verification process is complete, the system will then display the following the Transmission Review screen.

**Figure 126 GinnieNET Host Communications Result Report (For Job Number 2025)**

**[Step 9]** This record indicates whether or not your request was executed successfully and will provide the date and time of submission and FCN/FRN number generated upon successful transmission to the network.

**[Step 10]** To either print the screen, or to return to the Main Menu, simply click on either link in the top right-hand corner of the screen.

**NOTE:** After each successful transmission to the network, a notification indicating activity on the GinnieNET Server/Network is generated and sent by fax and posted on eNotification to the corresponding users.

This record indicates whether or not your request was executed successfully and provides the date and time of submission and the FCN/FRN number generated upon successful transmission to the network.
To access the Document Custodian Transfer/Merger function:

[Step 1] Click on the **Certifications Communications** link from the Host Communications menu.

![Image of GinnieNET On the Web: Investor Reporting Communications Option Screen](image1)

**Figure 127 GinnieNET On The Web: Investor Reporting Communications Option Screen**

The **Investor Reporting Communications** screen will then displayed, like that shown below in **Figure 128**.

![Image of GinnieNET On the Web: Investor Reporting Communications Screen](image2)

**Figure 128 Investor Reporting Communications Screen**

[Step 2] Click on the Document Custodian_Transfer/Merger to begin the report transmission process.
[Step 3] Click on the right-facing double-arrow icon [>] to select any of the pools shown.

[Step 4] To select a single pool, identifying the line item by clicking on the checkbox [ ] to the left of the selection, and clicking on the single-arrow icon [ ] to move the pool to the selected pool column.

Once the pools have been selected by the user, the pools should now appear in the screen’s Selected Account column.

[Step 5] Click on the <OK> button to return to the Host Communication menu.

[Step 6] Now, click on the <Submit> button to initialize the Fingerprint Verification process.
**Figure 131** Host Communications Selections (Pools To Be Certified Entries)

**[Step 7]** Complete the Fingerprint Verification process as described in the earlier section on Fingerprint Verification (see Section 3.7).

**[Step 8]** Once the verification process is complete, the system will then display the following the Transmission Review screen.

**Figure 132** GinnieNET Host Communications Result Report (For Job Number 2025)

**[Step 9]** This record indicates whether or not your request was executed successfully and will provide the date and time of submission and FCN/FRN number generated upon successful transmission to the network.

**[Step 10]** To either print the screen, or to return to the Main Menu, simply click on either link in the top right-hand corner of the screen.

**NOTE:** After each successful transmission to the network, a notification indicating activity on the GinnieNET Server/Network is generated and sent by fax and posted on eNotification to the corresponding users. This record indicates whether or not your request was executed successfully and provides the date and time of submission and the FTN number generated upon successful transmission to the network.
9.0 REPORTS
9.0 REPORTS

All reports can be viewed on the screen or printed using Abode Reader. Reports can also be saved as a PDF (Portable Document Format) document.

All reporting functions are the same. Use the following reporting instructions for generation of all reports in the Reports menu.

The Reports menu options enable you to print the following:

- New Pool Processing;
- Certifications.

![GinnieNET On The Web: Reports Option Screen](image)

**Figure 133** GinnieNET On The Web: Reports Option Screen

All reports can be viewed on the screen or printed using the Screen, Print and Save options in each Report options window. Those reports are discussed below in individual modules:

9.1 NEW POOL PROCESSING

- Schedule of Pooled Mortgages (11706) and Schedule of Pooled Mortgages (11706—HMBS);

10.1.1 Search Form Elements

TABLE 35 DATA EXPORT/IMPORT SCREEN: SEARCH FORM ELEMENTS TABLE MATRIX

<table>
<thead>
<tr>
<th>FIELD NAME</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pool #</td>
<td>The Pool Number is entered by the user.</td>
</tr>
<tr>
<td>Issue Type</td>
<td>User selects an Issue Type from the list of Available Issue Types.</td>
</tr>
<tr>
<td>Pool Type</td>
<td>User selects a Pool Type from the list of Available Pool Types.</td>
</tr>
<tr>
<td>Issuer Number</td>
<td>Available Active Issuer IDs are retrieved from the system that is associated with the logged-in user (Custodian). The user has to select an Issuer ID to work with. Required.</td>
</tr>
<tr>
<td>Transfer Status</td>
<td>User selects the Transfer Status from the List of Available Transfer Status.</td>
</tr>
<tr>
<td>Issue Date</td>
<td>By Default, the Issue Date is the first of the current month. If Pool Number is not entered, then Issue Date has to be selected to narrow the search and to limit the number of records retrieved. If Pool Number is entered then Issue date will be ignored. Required*.</td>
</tr>
</tbody>
</table>

*Required field only on some conditions; see Description for Issue Date.

10.1.2 How to Search Pool Records

[Step 1] On or around the Search page, enter enough information to isolate the record(s) you wish to locate. The user may enter Pool Number, Issue Type, Pool Type, Issuer Number, Transfer Status and Issue Date. Issuer Number has to be selected to work with. Issue Date has to be selected when Pool Number is not entered. The more information the user can enter, the more likely the resulting query will focus on the record item(s) you wish to view.

[Step 2] Click on the <Search> button to retrieve the record(s) you have identified. When the records have been compiled in the result set, GinnieNET will switch the view to the Search Results page only when the search returns multiple records. If only one (1) record is found, GinnieNET will switch the view directly to the Pool Details screen.

10.1.3 Search for a Single Record

[Step 1] Enter a valid report query and click on the screen’s <Search> button.

![Schedule of Subscribers Screen Search Field Parameters](image1)

[Step 2] Once the report is found, the user may either 1 click on the <Open> button (<ERROR! REFERENCE SOURCE NOT FOUND>), to view the report; 2 click on the <Save> button to save the report as a .pdf (Portable Data File) document; or 3 click on the <Cancel> button to cancel the current action altogether, and to exit Adobe Reader program.

10.1.4 Search Multiple Records

[Step 1] By leaving the Pool Number empty and entering any other search query, GinnieNET will switch the view to the Search Results page with multiple records, when multiple pool are entered on the system.

![Figure 139 Schedule of Subscribers - 11705 Screen Search Field Parameters]

[Step 2] Select a pool record(s) by clicking on the down-arrow adjacent to the search option field, and clicking on the Export tab. Alternatively, to generate a report of all pool records on the system, simply click on the Select All tab. The search results screen of figure will then display.

![Figure 140 Schedule of Subscribers - 11705 Screen Search Results Screen]

[Step 3] Once the desired report is found, either 1. click on the <Open> button to view the report; 2. click on the <Save> button to save the report as a .pdf (Portable Data File) document; or 3. click on the <Cancel> button to cancel the current action altogether, and to exit Adobe Reader program.
