MYGINNIE MAE
FULL RELEASE
KICKOFF CALL

January 14, 2020
• Introduction
• System & Workflow Requirements
• Additional Tips & Resources
• Key Dates & Activities
• Q&A
MyGinnieMae is a single gateway to all Ginnie Mae’s systems, applications, and resources, that boosts efficiency for our business partners. The portal provides enhanced security and a single entry-point to all approved applications for individual users, as well as a seamless user registration and access request process for both the user and the approving authority. MyGinnieMae delivers security features which Ginnie Mae established to specifically address business constraints, security concerns, and compliance issues that hinder GMEP 1.0 today.

Use one username and one password to access all Ginnie Mae systems, including GinnieNET and GMEP 1.0

Check the Modernization Page for the latest information and resources for MyGinnieMae.
Most new users to MyGinnieMae will log into the portal to continue access legacy systems that have yet to modernized and remain unchanged. However, Multifamily Issuers will have access to the new Multifamily Pool Delivery Module (MFPDM) for issuing and maintaining pools. See the Release and Training Schedule for training dates on this new application. Document Custodians will continue to complete their business activities in GinnieNET.

Check the Modernization Page for the latest information and resources for MyGinnieMae.
Organization Administrators are privileged users who control system access, assign functional roles, and perform other user management activities. These individuals are responsible for ensuring that End Users at their respective organizations are provided the appropriate level of access for their business role with Ginnie Mae. They were formerly known as Security Officers and Enrollment Administrators.

<table>
<thead>
<tr>
<th>User Type</th>
<th>Responsibility / Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Operations Administrator</td>
<td>Operations Administrators have general oversight of the Portal. They can only provide final acknowledgement of access requests and cannot make any changes to end user accounts. This function is provided by BNYM Operations on behalf of Ginnie Mae, with Ginnie Mae Information Security serving as the Super Administrator over the entire system.</td>
</tr>
<tr>
<td>Organization Administrator</td>
<td>Organization Administrators have the privilege to invite end users to register for a Portal account, approve user registration, initiate access request via functional role assignment to user and approve the access request within a single organization</td>
</tr>
<tr>
<td></td>
<td>Note: Separation of duties within the registration and access request workflows does not allow the Organization Administrator to initiate a registration and approve that same registration nor request access via functional role assignment and approve that same access request. A minimum of two Org Admins are required and it is recommended to have more than the minimum from an operational perspective.</td>
</tr>
<tr>
<td>End User</td>
<td>End Users are the various types of Ginnie Mae employees, business partners, and contractors who require access to the business applications and information within the Portal, including various self-service functions.</td>
</tr>
</tbody>
</table>
End Users are provided **access based on their business activities** which are organized into meaningful access profiles called **Functional Roles**. Use of Functional Roles ensures users have appropriate level of access in relation to their job functions/responsibilities, enforces the least privilege principle, and makes the account provisioning/de-provisioning actions easier for Organization Administrators. These roles are grouped and vary by type (Single Family, Multi-Family, HECM, etc.).

<table>
<thead>
<tr>
<th>Role Name</th>
<th>Role Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>SF-Loan Delivery and Pooling Basic User</td>
<td>Upload/enter pool and loan information for delivery; verify availability of commitment authority; clear document deficiencies and pooling exceptions; access to prepare but not execute PIIT/TAI transactions.</td>
</tr>
<tr>
<td>SF-Loan Delivery and Pooling Authorized Signer</td>
<td>Only for HUD 11702 signatories. All rights of a Loan Delivery and Pooling Basic User, plus; authority to submit pools for issuance, request additional commitment authority and execute PIIT/TAI transactions.</td>
</tr>
<tr>
<td>MF-Investor Reporting Basic User</td>
<td>Submit monthly pool and loan level accounting data; submit quarterly custodial account verification data; review monthly remittance information, review monthly reporting exception feedback and errors.</td>
</tr>
<tr>
<td>MF-Investor Reporting Authorized Signer</td>
<td>Only for HUD 11702 signatories. All rights of an Investor Reporting Basic User, plus; authority to certify the monthly pool and loan accounting report; submit edits needed to clear exception feedback and monthly reporting errors.</td>
</tr>
<tr>
<td>HECM-Compliance and Oversight User</td>
<td>Review portfolio servicing and investor reporting metrics and reports; oversee subservicer performance when applicable.</td>
</tr>
<tr>
<td>SS-Investor Reporting Basic User</td>
<td>Submit monthly pool and loan level accounting data; submit quarterly custodial account verification data; review monthly remittance information, review monthly reporting exception feedback and errors.</td>
</tr>
</tbody>
</table>

MGM WORKFLOW

MyGinnieMae Onboarding Workflow:

- **Registration Workflow** – creates a portal account which allows the user to login to MyGinnieMae.
- **Access Workflow** – assigns functional role(s) and provides the user access to business applications.

Legend

- System Generated Audit Report
- System Triggered Notification

*Email invitation link expires within 24 hours
**Approver cannot be the requestor

NOTE: Org Admins are expected to know the access and end user needs.

Check the [Modernization Page](#) for the latest information and resources for MyGinnieMae.
MGM ONBOARDING PREP

The following information will help Organization Administrators prepare for onboarding End Users.

• Minimum of 2 Org Admins is required per Org ID (per MBS Guide), however a minimum of 3 ORG ADMINS is recommended.

• User must be listed on FORM HUD 11702 to be provided Org Admin privileges (except Document Custodians)

• Contact the Ginnie Mae Help Desk at ginniemae1@bnymellon.com to add a new Org Admin

• Org Admins are not allowed to manage their own account registration or access

• Org Admins should become familiar with Functional Roles. A table of Functional Roles and their descriptions is available in the Appendix of each MyGinnieMae User Manual.

• Org Admins should have the following information before sending a registration invitation to an End User:
  - Display Name (First Last)
  - Job Title
  - Email Address
  - Telephone Number
  - RSA Token Serial #, if applicable (data entered by End User but should be validated by Org Admin)
  - Issuer Name(s)
  - Issuer ID(s)

• Org Admins will be sent a baseline user list to assist with gathering End User information

Check the Modernization Page for the latest information and resources for MyGinnieMae.
Organization Administrators are solely responsible for the ongoing management and maintenance of End User accounts on behalf of their organization. The Operations Administrator is not authorized to assist with End User account management. This includes but is not limited to:

- Initiate registration invitations to End User Account
- Approve or reject registration requests from End User Account
- Initiate access request/functional role for an End User Account
- Approve or reject functional role for an End User Account
- Remove a functional role from an End User Account
- Enable/Disable and Lock/Unlock End User Account
- Conduct password reset for End User Account

Check the Modernization Page for the latest information and resources for MyGinnieMae.
• **MyGinnieMae** is accessed via [https://my.ginniemae.gov](https://my.ginniemae.gov)

• **Compatible Browsers** include Google Chrome 42+, Internet Explorer 11.x, and Mozilla Firefox 31+

• **Pop-up blocker** must disabled in the web browser prior to accessing MyGinnieMae

• MyGinnieMae accounts can only be created with a **corporate email address**. Emails from yahoo.com, gmail.com, me.com, etc. are not allowed

• **Customized Automation tools** that are currently used in legacy systems may require development to work with the new security requirements

Check the [Modernization Page](#) for the latest information and resources for MyGinnieMae.
• **Step One:** Org Admins receive email invitations to create a MGM account.
  • Invitations expire in 24 hours.

• **Step Two:** Once approved, those Org Admins will begin sending email invitations to End Users in their organization.
  • Invitations expire in 24 hours.

• **Step Three:** End users will be provided access to Ginnie Mae systems based on their functional role in the organization.
  • Users may not be granted more access than required

• **Step Four:** Enjoy the new portal!
MGM KEY DATES & ACTIVITIES

Training dates are currently posted
Registration links for each event will be added to the calendar soon
Portal users are welcome to **attend any session of interest**
Org Admins will receive meeting invitations to training. End Users should stay tuned to eNotification and the Modernization Page.
• **All training sessions will be delivered via Zoom.**

Modernization Effort

Ginnie Mae continues the endeavor to modernize its Securitization Platform technology, processes, and related policies in response to the growing need for increased transparency and improved service delivery to its issuers and investors. Towards this goal, Ginnie Mae is building a comprehensive platform that integrates functional and technological capabilities into a common infrastructure.

The broad details of these efforts are outlined in a recently published white paper, “Ginnie Mae 2020”, and further defined by Barbara Cooper-Jones, SVP of Enterprise Data and Technology in an Op-ed in American Banker. The Op-ed described the widespread benefits modernization at Ginnie Mae will deliver for its customers, business partners and the government mortgage loan market supported by the corporation’s mortgage-backed securities program.

For a list of documents, publications, and processes that are part of our modernization effort, please see the tables below for more information.
