

## Zoom Meeting Instructions

In order to participate in this class, you will need:

- A computer with access to the internet
- Zoom client installed on a computer (see details below)
- A telephone or computer speaker and microphone

### Zoom Installation Instructions:

Please note we are now using Zoom to host outreach web conferences. Please follow the instructions below to **test your ability to connect prior to the meeting**.

Web conference information is listed below. Please note that you will need the Zoom client installed on your computer in order to access the web conference. If you do not have this program installed, the free client version can be downloaded from [Zoom's website](https://zoom.us). You can download and test the program by clicking the following link <https://zoom.us/support/download>. Once installed you can test the client here <https://zoom.us/test>. Click "Join" and follow the instructions on the screen to install and test the program. You can also click the "Join from Browser" option on the Test page if you are unable to install the software.

Additional support information can be found here:

Ginnie Mae is a wholly-owned government corporation within the U.S. Department of Housing and Urban Development. Ginnie Mae pioneered the mortgage-backed security (MBS), guaranteeing the very first security in 1970. An MBS enables a mortgage lender to aggregate and sell mortgage loans as a security to investors. Ginnie Mae securities carry the full faith and credit of the United States Government, which means that, even in difficult times, an investment in Ginnie Mae is one of the safest an investor can make.
