1 INTRODUCTION

1.1 Application Overview
A core Ginnie Mae function is to allow Issuers to submit pool and loan data to be assembled and issued as Ginnie Mae Mortgage-Backed Securities (MBS). The Multifamily Pool Delivery Module (MFPDM) application provides an updated interface to those processes and procedures that are currently supported through the GinnieNET application. Pool and loan data can be submitted through the use of electronically uploaded files or by manual data entry and tracked through the pool processing workflow via a My Dashboard display called My Pools.

1.2 Features
The following features are available to users:
- My Dashboard
- Pools & Loans View
- Pool Details
- All Loans
- Loan Details
- Draw History Details
- Manually add pools, loans, and draws
- Import and Export pools, loans, and draws
- Request Pre-approval
- Modify pools, loans, and draws
- Delete and Recall pools
- Maintenance

1.3 Data Flows
The following data flow reflects the different operational activities for the Multifamily Pool Submission:
- Issuers create a new Multifamily Pool, save and validate
- Issuers can then add a Loan and Draws (if applicable), save and validate
- Issuer submits the pool for Final Certification
- Certification will happen as it does today by Document Custodian and once this is complete the pool status is updated to Final Certified
- Pool can continue path to Issuance
• Issuers can also delete pools that have not yet been submitted for Final Certification
• Issuers can recall pools that have not been released for issuance by the system
• Issuers can request pool Transfer at Issuance (TAI) in MFPDM, which needs to be certified by the Document Custodian and accepted by the Buying Issuer in GinnieNET before issuance

1.4 Authorized Use / Permission
Please refer to the My Ginnie Mae Portal – Getting Started Manual for authorized use and permission.

2 SYSTEM PREREQUISITES

The MFPDM application is implemented on the existing web based MyGinnieMae Portal. No new or enhanced hardware will be required to support MFPMD application. Pool Certification processes performed by Document Custodians will remain in GinnieNET, as is, until a later release.

Please refer to the My Ginnie Mae Portal – Getting Started Manual for system prerequisites for accessing MyGinnieMae and associated applications.

3 GETTING STARTED

Upon logging into MyGinnieMae, MFPDM application is accessed via a tab on My Dashboard. Before being granted access to the application, the user must complete the MyGinnieMae Portal registration process. Privileged users called Organization Administrators, formerly known as Security Officers and Enrollment Administrators, facilitate the registration and access provisioning process to create user accounts and assign functional roles within each organization.

A functional role is a system access profile based on business activities used to ensure End Users have the appropriate level of access to be able to perform their job functions and responsibilities. There are two functional roles associated with MFPDM.

Please refer to the [My Ginnie Mae Portal – Getting Started Manual](#) for gaining access and logging into MyGinnieMae and associated applications.

## 4 USING THE APPLICATION

Upon logon, the user is presented with My Dashboard which displays options for navigating to the MFPDM application. To access the MFPDM Application, click **MFPDM Pools & Loans** tab at the top of the screen.

**Figure 1: MFPDM Pools & Loans Tab**

### 4.1 Pools & Loans Page

Displays a list of pools associated with the selected Issuer ID.

4.1.2 Add Pools

Clicking on the **Add Pools** button provides the option to enter pool information manually or to import pool/loan data.

![Add Pools](image)

**Figure 4: Add Pools**

1. Under ‘Enter Pool Data Manually’, click the **Enter Manually** button to be taken to the Pool Details screen to manually create a new pool.

2. Under ‘Import pool data file’, click the **Browse** button to locate a compatible file containing pool/loan data to import.
   a) Select ‘Validate against Ginnie Mae Business Rules during import’ to run the validation process during file import.
   b) Select ‘Override prior file submissions’ to replace previously entered/imported data.

4.1.3 Quick Filters

Located just above the pool list are quick filter buttons that can be utilized to immediately filter the pool list according to the button description.

4.1.14 Draw History Details Page

Construction Loan Draws are submitted during the life of the CL/CS that draws down on the mortgage amount of the project. This page allows the User to enter each draw issuance for the life of the Construction Loan until the conversion to the Project Loan takes place. The initial Construction Loan pool is considered the first Construction Loan Draw submission. Each draw submission will have a different Draw Number and Draw Issue Date. The system keeps a history of each draw issued in connection to a project until the pool converts.

4.8 Issuer Pre-Approvals

The following section describes when and how an Issuer should request a Pre-Approval for Basis Point spread, Balloon Payment, and Cross default/Cross Reference requests.

4.8.1 Basis Point Spread Pre-Approval

1. Create a Pool and Loan and select Validate.

If the Basis Points Spread is not within range, the system generates a fatal error directing the user to request a pre-approval. Basis Point Spread Pre-approval Rules are as follows:

- The Rate Spread between Mortgage Interest Rate and Pool Security Rate should be between 25-50 Basis points for Pool Type (CL, CS, LM, PN). If the spread is not in the range user will be prompted to request Pre-Approval from Ginnie Mae AE to proceed with pool submissions.
- The Rate Spread between Mortgage Interest Rate and PL/PN Security Rate should be between 25-50 Basis points for Pool Type (CS, CL). If the spread is not in the range user will be prompted to request Pre-Approval from Ginnie Mae AE to proceed with pool submissions.
- The Rate Spread between Mortgage Interest Rate and Pool Security Rate should be greater than 50 Basis points for Pool Type (LS, RX) If the spread is not in the range user will be prompted to request Pre-Approval from Ginnie Mae AE to proceed with pool submissions.
- The Rate Spread between Mortgage Interest Rate and Pool Security Rate should be not be less than 13 basis point (CL, CS, RX, LS, LM, PN). This spread will not allow a Pre-Approval request and rates must be adjusted.

2. Complete the Pre-Approval section on the Pool Details page. The following fields are required:
• Does this require Pre-Approval? Yes/No
• Basis Points Spread – automatically populated
• Request Date – automatically populated with the date the request was created
• Request Approval By – Enter the date the AE should respond by. The Calendar date must be entered at least one day before last business day of the month and by 2:00 pm, and cannot be a holiday, weekend, or a past date. This date cannot be later than the Delivery Date of the Pool.
• Project Name – enter project name
• Upload Documents – This is an optional field that can be updated at any time while the Pool is in ‘Draft’ Status (even after request was submitted to the AE). Select ‘Browse’ to choose the document and select ‘Upload’ to complete.
• Request Reason – enter the reason for the Pre-Approval request

Figure 44: Pre-Approval for Basis Point Spread

3. Upon populating all required fields, click **SAVE** on the top menu and **VALIDATE**. Once Validation is complete the **REQUEST PRE-APPROVAL** button displays.

Figure 45: Request Pre-Approval Button

4. Click the **REQUEST PRE-APPROVAL** button to submit the request to the Account Executive.
5. Issuer will receive confirmation notification that Pre-approval has been sent to AE.
6. AE will also receive the same notification via the MyGinnieMae Portal Messages as well as via email, informing them that a pre-approval request was submitted and requires a response.
7. Once the Pre-Approval request is submitted to the AE, the Pool and Loan Details pages remain editable for the Issuer with the exception of the following fields:
   - Does this require Pre-Approval
   - Request Approval By
   - Project Name
   - Request Reason
   - Security Interest Rate
   - Mortgage Interest Rate

8. Once the Account Executive receives the Pre-Approval request they may choose to Accept or Decline.
   - If the Pre-Approval request is accepted, the Issuer will be able to view the accepted status in the Pre-Approvals section.
   - In addition, a Waiver Letter is generated and can be found in the ‘Docs’ drop down menu.
If the Account Executive declines the Pre-Approval request, a notification is sent to the Issuer and the Pre-approval section of the pool will be updated indicating the reason for decline.

The issuer can then edit the pre-approval or remove the request by selecting the No radio button.
4.8.2 Cross Default/Cross Reference Case Number Pre-Approval

User creates a Multifamily Pool and wants to Cross Default/Cross reference pool, User will have to request for pre-approval from Account Executive.

1. In order to Cross Default/Cross Reference a pool, the Issuer must populate following fields in Cross Default/Cross Reference section of the Pool:

• In addition, a Waiver Letter is generated and can be found in the ‘Docs’ drop down menu.

![Figure 67: Docs Drop Down Menu](image)

• If the Account Executive declines the Pre-Approval request, a notification is sent to the Issuer and pre-approval section will indicate the reason for decline.

![Figure 68: Decline Notification](image)
4.8.4 Multiple Pre-Approvals within one Pool

Users are able to submit more than one Pre-Approval request type within the same Pool if the business rules require. The Pool may include one, two, or all three Pre-Approval types if it meets the criteria for each. Each Pre-Approval type should be filled out following the guidelines listed in the sections above – Basis Points Spread Pre-Approval, Cross Default/Cross Reference Case Number Pre-Approval and Balloon Payment Pre-Approval.

4.8.5 Discarding Pre-Approval Information

If the Pre-Approval sections have been completed but not yet submitted, the pre-approval request can be removed by changing the selection option for Does this require Pre-Approval? from Yes to No.

A confirmation pop up displays explaining that by selecting “No” all the information in the request will be discarded. Select Yes, Discard changes to confirm or select Cancel to keep all data in the request.
4.8.6 Canceling Pre-Approval Request

Once a Pre-Approval request has been submitted to the AE, it can be cancelled as long as the AE has not yet responded. To cancel the pre-approval request, select **Cancel Pre-Approval Request** at the top menu.

Once this option is selected, a Cancel Pre-Approval confirmation displays on the screen. If user selects the OK button, notification will be sent to the Issuer and AE confirming the Pre-Approval request has been cancelled. If there is more than one request within the Pool all will be cancelled.

4.9 Ginnie Mae Account Executive (AE) Response to Pre-Approval

The following section lays out how the Account Executive (AE) can accept Accept or Decline Pre-Approvals for Basis Point spread, Balloon Payment, and Cross default/Cross Reference requests.

4.9.1 AE Pre-Approval Notifications

Once an Issuer submits a Pre-Approval request to the AE, all AEs will receive Pre-Approval notifications via e-mail and MyGinnieMae Inbox Messages. The same notifications will also be sent to Issuers.
NOTE: When a new action is taken, Issuers and AEs will receive the appropriate notifications (i.e. Pre-Approval request is submitted, Pre-Approval request cancelled, AE accept/declines Pre-Approval, Pre-Approvals request expired etc.)

4.9.2 AE Access to Pools that Require Pre-Approvals

After receiving the notifications AEs can access the Pools that are pending Pre-Approvals from the Pools & Loans page by searching for Pool ID; using the advanced search Pre-Approval Status filter; or selecting the Pending Pre-Approval quick filter button.

4.9.3 How Account Executives Accept/Decline Pre-Approvals

The following steps describe how the Account Executive (AE) provides a Pre-Approval response to Issuers:

1) Select the desired Pool which requires a Pre-Approval response, the user can click Edit on the Pool Details page
2) User then navigates to the Pre-Approval section within the page and can Accept or Decline by choosing the appropriate Pre-Approval Response radio button.
   a. If the user accepts the Pre-Approval, a comment can be added (optional).
   b. If the user declines, a reason for the decline must be entered.
Note: If there are more than one Pre-Approval type pending within the same pool, the AE must provide a response to all pending items at the same time before sending to the Issuer.

![Figure 77: Pre-Approval](image)

1) User must select the **attestation** check box if Pre-Approval request is accepted. This applies for all three Pre-Approval request (Basis Point Spread, Cross Default, and Balloon Payment). When approving a Cross reference Pre-Approval, no attestation statement will be displayed on the Pre-Approval Response.

![Figure 78: Pre-Approval Response](image)

2) User can Submit Pre-Approval response by clicking the **SUBMIT PRE-APPROVAL RESPONSE** button.

![Figure 79: Submit Pre-Approval Response Button](image)

3) Once the Cross Default Pre-Approval is accepted and response is submitted to issuers, a waiver letter is generated and can be viewed from the **DOCS** drop-down menu.

**NOTE:** In the event the request is for Cross Reference then a waiver letter is not required and will not be generated.
4) Issuer is notified of the Account Executive’s decision.

5) Multiple Pre-Approval requests can be Accepted/Declined from Pools and Loan page.
6) If the Account Executive does not take action by the Request Approval By date, the Pre-Approval Request expires and the Account Executive and Issuer are notified. If this occurs, the Issuer must submit another Pre-Approval Request to the Account Executive.

4.10 Non-Level Payment Schedule

For pools with multiple interest rate changes and P&I payments, the Non-Level Payment Schedule section must be used to track these changes. Multiple interest rate changes and P&I payments are acceptable with the following Submission Types:

- Submission Type 01 – Initial Construction Loan (CL/CS Pool Type Only)
- Submission Type 03 and 05 - Conversion (PN Pool Type only)
- Submission Type 04 - Initial Project Loan
The following fields associated with the Non-Level Payment Schedule are available on the Loan Details screen:

### 4.11 Modified Payment History

A modified loan is a project mortgage that has been modified with FHA’s approval after the final endorsement. This type of loan is eligible for pooling in a LM pool. A mature loan LM pool can have loans that are either older than twenty-four
month old or modified loans. Mature Loan (LM) pools are submitted under Submission Type 04. Once the LM loan is identified as a modified loan, the following fields are available.

<table>
<thead>
<tr>
<th>Field Name</th>

8. Enter an Interest Rate associated with entry.
9. Click the **Add** button to add additional entries (as required).
10. When all entries have been added, click **SAVE**.

### 4.12 Certify Loan

When entering a new loan for a pool with a Pool Type of LM, the **Certify Loan** section must be completed.

![Figure 86: Certify Loan](image)

The text of the agreement is as follows:

1. I, the undersigned, do certify:

   1. The contract of Mortgage Insurance with the Federal Housing Administration is in full force.
   2. The mortgage is Fully Insured by the Federal Housing Administration and not subject to a Coinsurance Mortgage contract.
   3. Unless subject to a current modification approved by the Federal Housing Administration, the project has had sustained occupancy of at least 90 percent, for the past 24 months. (Audited financial statements)
   4. Unless subject to a current modification approved by the Federal Housing Administration, the mortgage has been current monthly through principal, interest, and all escrows, including the Reserve for Replacement account, for the past 24 months. (Servicing records and audited financial reports)
   5. Unless subject to a current modification approved by the Federal Housing Administration, the project’s Reserve for Replacement account is funded to an amount of at least 24 monthly payments. (Servicing records and Regulatory Agreement)
   6. Unless subject to a current modification approved by the Federal Housing Administration, the most current project physical inspection performed denotes a rating of satisfactory or higher, and all required repairs have been made and inspected by the mortgagee and determined to be satisfactory. (Project physical inspection)
   7. If the mortgaged property is subject to a project-based rental subsidy contract, the loan has been marked-to-market by HUD. (Servicing records and legal file)
   8. Unless subject to a current modification approved by the Federal Housing Administration, the project has a minimum Debt Service Coverage of 117 percent. (Audited financial report)

**WARNING:** It is a crime to knowingly make false statements to a Federal Agency. Penalties upon conviction can include a fine and imprisonment. For details, see Title 18, U.S. Code 1001 and 1010.

For a Pool Type of LM, check the **I Agree** checkbox to save the loan.
4.13  Submission Steps by Pool Type
Each section below details the steps necessary to prepare a pool for submission to the Document Custodian respective to their Pool Type.

4.13.1  Pool Submission Methods
Users have the option to submit Pools from various locations in the application listed below.

Pools & Loans - Checkbox

![Figure 87: Single / Multiple Submission on Pools & Loans Page](image)

To submit a single pool, or multiple pools in bulk, from the **Pools & Loans** page users select the checkbox(es) next to the pool(s) they wish to submit. Once the pools are selected, the users click the **Submit** button from the table header.

Pools & Loans - Row Action

![Figure 88: Row Action Submission on Pools & Loans Page](image)

To submit a Pool from the **Pools & Loans** page users click the ellipsis button on the right side of each pool, and click the **Submit** button.

Pool Details

To submit a Pool from the Pool Details page, once the pool is validated, click the **Submit** button in the pool header, as seen below:
Draw History Details

To submit a Pool from the Pool Details page, once the pool is validated, click the Submit button on the pool header, as seen in the figure above.

4.13.2 Data Entry Users and Authorized Signer Users

Data Entry and Authorized Signer users are able to create, update, and delete pools in Draft status. Data Entry users may submit a pool to Authorized Signers for their review and submission to the Document Custodian. These pools can be identified by clicking the ‘Ready for Submission’ quick filter on the Pools & Loans screen. Only Authorized Signers are able to submit a pool for certification by their Document Custodian as a SecurID Token is required.

1. Once the Authorized Signer has clicked the Submit button to submit a pool for Final Certification, a Pool Submission for Certification pop-up appears with Certification and SecurID tabs. The user must first check the box confirming the pool is being Submitted for Final Certification, and then select **CONTINUE**.

![SecurID and Pin](image)
2. The SecurID tab will then be displayed. The user will enter their four (4) digit PIN and six (6) digit SecurID Token, followed by clicking the **Submit** button to Submit the pool.

![](image)

**Figure 92: Submission Processing Message**

3. A pop-up confirming the pool is being processed will appear. Once the process is complete the user will receive a notification message in their Inbox stating whether the pool was submitted successfully or failed during submission. If successfully submitted, the status of the pool will be updated to ‘Submitted for Final Certification’ in the Pool’s header and on the Pools & Loans page and the system will return an FTN.

**Note:** Certain actions such as ‘Validate’ or ‘Submit’ are asynchronous processes and may take a few minutes to process. A notification will be sent to the user once the process is complete. At this time, users may refresh the screen by clicking the refresh icon in the Pool's header.

4.13.7 Submission Type 03-Project Loan Conversion

The following section will describe the steps to create a CL Submission Type 03 with a project loan conversion. The steps also apply similarly to CS pool types.

![Figure 103: CL Submission Type 03 with PN Conversion – Pool Details Page](image)
To create a Project Loan Conversion pool:

1. From the Pools & Loans screen, click the **Add Pools** button in the header.

2. Select the **Enter Manually** button to be taken to the Pool Details screen.

3. Enter the **Pool Number**. This must be the next sequential Pool Number from the associated Construction Loan (CL/CS) pool.

4. Select an **Issue Date** from the dropdown.

5. Select Pool Type **PN-Project Loan – Non-Level Payment**.

6. Select Submission Type **03-Project Loan Conversion**.

7. Enter the **Final Advance Amount**.
   - The final advance amount (form HUD-92403) of a construction loan pool (CL or CS) converting to a Project Loan pool (PN). This last advance, combined with the cumulative approved amount of the cross-referenced Construction Loan pool, must equal the Total Mortgage Amount of the pool (to date).

8. Enter a **Pool Tax ID**. Must be nine (9) digits.

9. Select a **Delivery Date** from the date calendar.
   - Must be a valid business day.
   - Must be greater than or equal to the current date.
   - Must be within the month associated with the Issue Date.
10. Enter a **Security Interest Rate**. Maximum value length of six (6) including one (1) decimal point. (e.g. 12.345 %).

11. (Optional) Select **Change Mortgage Amount** checkbox.
   a. Enter the **Mortgage Amount**.
   b. Enter the **P&I Amount**.
   c. Select an **Approval Date**.
   d. Enter a **Comment** (optional).

12. Select a **Maturity Date** from the date calendar. Must be the 15th of the month.

4.13.8 Submission Type 05-Final Draw/PN Conversion

The section below will display the steps to create a CS Submission Type 05 Final Draw with a PN Conversion. The steps also apply similarly to CL pool types.

Utilizing Submission Type ‘05-Final Draw/PN Conversion’, all CL/CS pools will automatically be converted to PN pools after the settlements of the final CL/CS Draw position. All pools will be issued as PN. A PN pool structure allows Issuers to avoid early pool termination under predetermined circumstances and offers issues options to prevent the default and assignment of a loan to FHA.

The Issuer will be required to submit the Final CL/CS Draw issuance and PN Conversion pool (two pool packages) under one transmission. It is required that data be entered using two consecutive pool numbers.

The CL/CS-to-PN conversion process has two (2) settlement streams.

1. Issuer will simultaneously submit the Final CL/CS pool and the new PN Conversion pool to the Pool Processing Agent (PPA).
2. The Final Construction Loan Draw would be issued as a CL/CS security to the contracted investor.
3. Issuers will contract the PPA to cancel/exchange the outstanding securities and issue the final PN security.
4. The PPA will contact the Depository.
5. The Depository will broadcast a message announcing the CL/CS cancellation/exchange date of the pool to all investors with notice that, “The replacement PN pool will be issued within two business dates.”
6. On the cancellation date at approximately 8:30 A.M., the CUSIP will be withdrawn. The PN CUSIP will also be settled on this date.
7. The new PN pool would be issued and delivered to the investor of record, based on the delivery instruction provided.

The Final Construction Loan Draw will settle and three (3) business days later the Project Loan Conversion is scheduled to settle. On the morning of the settlement of the Project Loan Conversion, the Construction Loan pool number will be matured (cancelled) by the Depository.

**Note:** Both pools (CL/CS and PN) must be entered on the system and Submission Type 05 must be selected.

### 4.14 Using the Solution (Batch)

#### 4.14.1 Pool/Loan Import

To import pool/loan data.

1. Click on the **ADD POOLS** button to enter pool information manually or to import pool/loan data.

![Figure 119: Add Pools](image-url)
2. Under ‘Import pool data file’, click the button to locate a compatible file containing pool/loan data to import.

**Note:** MFPDM requires a .TXT file for import.

3. Select a compatible file and click **Open**.

4. If desired, select either/both checkbox:
   a. ‘Validate against Ginnie Mae Business Rules during import’ to run the Ginnie Mae validation process during file import.
   b. ‘Override prior file submissions’ to replace previously entered/imported data.

5. Select **SUBMIT**.

**Note:** Clicking **Cancel** closes the file selection screen and removes the selected file from import.

**Note:** If there is an error on one of the Subscribers during import all Subscriber entries are discarded (not saved).
4.15 Troubleshooting Common Errors

4.15.1 Field-Level Validation

MFPDM has two ways to indicate a problem with the data being entered. The first is a Field-Level Validation. Once User enters data in fields required for save (*) or additional key fields, the field-level validations immediately alert the User to invalid data.

An example of a field-level validation and hover-over can be seen below:

![Field-Level Validation Example](image)

Figure 121: Field-Level Validation Example

The field will turn red and an associated error message is available upon hovering over the field.

4.15.2 Validation Fatal Error and Warning Messages

Upon selecting the Validate option from the Pool Header, MFPDM will verify pool/loan/draw data against a list of Ginnie Mae business rules. If issues with the data are found, MFPDM will display the associated Errors and Warnings at the top of the respective page upon which the error originates. An example of Loan Detail related Errors and Warnings can be seen below:

![Validation Errors and Warnings](image)

Figure 122: Validation Errors and Warnings

Fatal error messages appear in red at the top. Fatal error messages must be corrected before a pool is able to be submitted to a document custodian for certification.
Warnings are displayed in orange just below any fatal error messages. Warnings serve as a notification that something may be incorrect. Warnings do not need to be corrected before a pool is able to be submitted to a document custodian for certification.

Below is a sample of the most commonly seen error and warning messages for Multifamily pools and loans.

**Table 11: Common Fatal and Warning Messages**

*(F) – Fatal  
(W) – Warning
4.15.3 Date Selection Limitations

All date fields in MFPDM provide the option to select a date from a date calendar widget. The date picker automatically limits to only valid options. Following is an example of a date picker limitation:

![Date Calendar Limitation](image)

Figure 123: Date Calendar Limitation

In this instance, the field is limited to selecting only the 15th day of each month.

4.15.4 Limited Dropdown Selections

Dropdown fields in MFPDM may automatically restrict the data shown based upon many potential factors including:

- Signed and valid Master Agreement data
- A value selected in a dependent field (e.g. Submission Type is based on the Pool Type selected)
- Account Numbers (P&I, Escrow, etc.) are limited based upon the ABA/Federal Routing Number selected

4.16 Special Actions/Exceptions

4.16.1 Browser Back/Refresh Button

While using the MFPDM application, it is not recommended to use the web browser Back/Refresh Button as data may not be saved and filters used may clear when going back.

![Browser Back/Refresh Button](image)

Figure 124: Browser Back/Refresh Button
Instead, when user is in the Pool Details, Loans, Loan Details or Draw Details pages the pool header will display the application back button. By clicking this arrow the users will safely go back to the previous screen.

This Quick Reference Card (QRC) has been created to help users navigate the Multifamily Pool Delivery Module (MFPDM) on MyGinnieMae Portal. The steps below describe how a Data Entry User and an Authorized Signer User can add, save, validate and submit Multifamily pools. The certification of the pools by the Document Custodian will continue as it does today via GinnieNET.

**MyGinnieMae Portal & My Dashboard**

1. Navigate to [https://my.ginniemae.gov](https://my.ginniemae.gov) to access MyGinnieMae. Follow the login steps.
2. **My Dashboard** will display and includes recent pool updates for all Issuers, system messages and more.
3. **My Pools** section shows information related to recent activity within an Issuer’s pools.
4. User can also access additional widgets: Inbox, Notes, Commitment Authority, Pool Numbers etc.
5. To access the MFPDM Application select the **Pools & Loans** tab.
MANUALLY ADDING A POOL

1. From the Pools & Loans screen, select the Add Pools button in the header section.

2. Select the Enter Manually button to be taken to the Pool Details screen.

3. Fill out the Pool Details screen reflecting all fields as they appear in the 11705 form.

4. Select Save button to create the pool.

NOTE: In order to save the pool all fields with an asterisk (*) indicator are required.
**ADDING A LOAN**

1. From the Pool Details screen, click the Loans tab.

2. From the All Loans screen, click the Add Loan button.

3. Fill out the Loan Details screen reflecting all fields as they appear in the 11706 form.

4. Once a Pool is saved, users can run the Business Rules at any time by selecting the Validate button on any of the tabs (Pool Details, Loans Details or Draw History Details).

5. If there are errors, Fatal (F) or Warning (W) messages will display on the various tabs. Users will need to select Edit and then Save to update the pool accordingly.

6. To Submit for Final Certification from the Pool Details screen select the Submit button from the header menu.

7. To submit one or multiple pools from the Pools & Loans screen clicking on one or more checkboxes. Select Submit from the header menu.

**NOTE:** This is required for a Submission Type 5 Conversion Pool.

**NOTE:** Once Data Entry users select submit, the pools will then be queued for the Authorized signer to Submit for Final Certification. Once the Authorized signer selects the Submit button they will follow the steps below.
8. A confirmation window will display. To proceed with submission, select *Continue*.

9. User will be prompted to enter **RSA Pin and SecurID**, and select **Submit** to complete the process.

10. A message will display stating the pool is being processed.

11. Users will receive an Inbox message confirming the result of the submission.

**NOTE:** ‘Validation’ or ‘Submission’ for Certification are asynchronous processes and may take some time until updated data displays on screen. Users can refresh by clicking the refresh icon on the screen at any time, however the data will only display on refresh once the process is complete.

**ADDING A CONSTRUCTION LOAN DRAW**

1. To add Construction Loan Draws to applicable Pools, select the Draw History Details tab.
2. Enter an **Advance Amount**
3. Enter the **Requested Amount**.
4. Click **Save**.

To Validate and Submit for Final Certification, see ‘ADDING A LOAN’ section above and repeat steps 4 through 11.
VIEW POOLS PREPARED BY DATA ENTRY USER

1. To view pools submitted by the Data Entry users, Authorized Signers can go to the Pools & Loans page and select the Ready for Submission quick filter.

   The screen will display all pools that are validated and ready to Submit for Final Certification. To Submit for Final Certification, see ‘ADDING A LOAN’ section above and repeat steps 6 through 11.

VIEWING FORMS & REPORTS

1. To generate a form/report Users can select the Docs button on the top right corner of the Pool Header. A drop down menu will appear with the available forms and reports.

2. Select a document and a pdf will be generated. Users can then view, save and print the document.
