

CHAPTER 25. BUYDOWN MORTGAGE POOLS — SPECIAL REQUIREMENTS

PART 1. OVERVIEW OF CHAPTER

Effective Date: 2009-10-01

This chapter describes special requirements that apply for a pool or loan package of buydown mortgages. The requirements described in this chapter may modify, supplement, or in some cases repeat, for the purpose of emphasis, those requirements set forth in previous chapters with respect to mortgage eligibility, pool and loan package requirements, required pool and loan package submission documents, and the actual securities. The pool suffix is “BD”.

Buydown pools may be formed under both Ginnie Mae I and Ginnie Mae II MBS programs, however mortgages with buydown provisions are prohibited from pooling in any Ginnie Mae I SF pool.

Applicable Buydown Pool Types At A Glance:

Ginnie Mae I MBS Program	Ginnie Mae II MBS Program
X BD: A single family, level payment pool that may contain one or more buydown loans.	C BD: A single family, custom buydown pool that may contain one or more buydown loans.
X SF: A single family, level payment pool that may not contain any buydown loans	C SF: A single family, level payment custom pool whose buydown loan origination balance may not exceed 10.00% of the pool’s total original principal balance
	M SF: A single family, multiple Issuer level payment pool consisting of loan packages whose aggregate principal buydown balance may not exceed 10.00% of the pool’s total principal origination balance. In the event that the percentage of buydown loans exceeds the 10.00% threshold, the loan package with the highest percentage of buydown loans will be removed. The process will continue until the 10.00% buydown limitation is met.

A buydown mortgage is a mortgage for which funds are provided to reduce the borrower's monthly payments during the early years of the mortgage. Buydown mortgages are not subsidized by the FHA or VA. The subsidy is usually provided by the builder or other property seller to encourage the buyer to purchase the property. If a loan were originated with a buydown provision and the buydown period expired prior to pooling, that loan will always be considered a buydown loan for pooling purposes.

PART 2. MORTGAGE ELIGIBILITY AND POOL REQUIREMENTS

Effective Date: 2009-10-01

The mortgage eligibility and pool requirements that apply, with limited exceptions, to all pool types are found in MBS Guide, Ch. 9. While Buydown mortgage pools may be formed under

both Ginnie Mae I and Ginnie Mae II MBS programs, C BD pool types may only be created under the Ginnie Mae II MBS program. With the exception of the prohibition on buydown provisions, the eligibility requirements for Ginnie Mae MBS mortgages (*Please See MBS Guide Chapter 24*) apply to Buydown mortgages, except as modified by the following:

(1) Eligible Pool Types, Ginnie Mae I MBS:

- (a) X BD: Single Family, level payment pool that may contain one or more buydown loans. Note: X SF pools may not contain any buydown loans.

(2) Eligible Pool Types, Ginnie Mae II MBS:

- (a) C BD: Single Family level payment custom buydown pool that may contain one or more buydown loans.
- (b) C SF: Single Family, level payment custom pool whose aggregate original principal balance may not contain more than 10.00% buydown loans.
- (c) M SF: Single Family, level payment multiple Issuer pool consisting of loan packages that are not limited to the number of buydown loans submitted, except in cases where the pool's total origination balance of buydown loans exceeds the 10.00% threshold. In these instances, Ginnie^{NET} will remove the loan package(s) with the highest percentage of buydown loans in order to conform with the 10.00% buydown limitation. Issuers will be immediately notified of any loan package removal in order to accommodate alternative pooling options.

(3) Minimum pool balance:

As of the date of issue, each buydown pool, other than a pool formed pursuant to a BFP, must have an original principal amount of at least \$500,000;

(4) Pool Composition:

In order for a pool to qualify as a buydown pool, at least one of the underlying mortgages must have buydown provisions.

(5) Interest escrow custodial account:

An interest escrow custodial account must be maintained in connection with buydown mortgages, and used for the deposit of buydown funds administered by the Issuer. This account must meet Ginnie Mae's escrow custodial account requirements (*Please See MBS Guide Chapter 16, Part 5*) and it must also meet FHA's and VA's requirements for such accounts.

PART 3. REQUIRED DOCUMENTS

The procedures and basic document requirements for submission of all pools are found in MBS Guide, Ch. 10, 11 and 13.

Section A. For Certification by Document Custodian

Effective Date: 2021-07-28

The loan documents required for initial and final certification of a BD pool by the document custodian are the same as those discussed in MBS Guide, Ch. 13, Part 7. They are summarized in the following table.

Section B. For Approval by PPA and Ginnie Mae

Effective Date: 2009-10-01

The buydown pool documents required for approval by Ginnie Mae are the same as those discussed in MBS Guide, Ch. 10, Part 3, except as modified below.

- (1) All references to "pool number" on all forms must include the suffix "BD";
- (2) Schedule of Subscribers and Ginnie Mae Guaranty Agreement, form HUD 11705 (Appendix III-6), that, for Ginnie Mae pools, must indicate in the block "Type of Issue" that the pool is "X" and in the block "Pool Type" that the securities are to be "BD." For Ginnie Mae II buydown pools or loan packages, the "Type of Issue" block must be populated with a "C" and in the block "Pool Type" the securities are to be "BD".

- (3) Schedule of Pooled Mortgages, form HUD 11706 (Appendix III-7), which must identify each of the loans as a buydown by including in the column titled "FHAVA-RD-PIH Case Number" the full agency designated number, including the code identifying each loan as a BD loan. Also, the "Monthly Constant (P&I)" is the total fixed installment constant, including amounts collected from the mortgagor and from the escrow custodial account;
- (4) Unless the pool is submitted by GinnieNET, a prospectus, form HUD 11717 (Appendix IV-4), must be modified as follows: The Issuer must include the following text by typing it on the "Annex — Special Disclosure," which is attached to the prospectus.

BUYDOWN MORTGAGES

Some or all of the pooled mortgages are level payment mortgages for which funds have been provided to reduce the borrower's monthly payments during the early years of the loans.

- (5) A BFP certification (Appendix III-12), if required pursuant to MBS Guide, Ch. 25, Part 2 and Ch. 24, Part 2, § B(2).

PART 4. THE SECURITIES

Effective Date: 2009-10-01

Preparation and delivery of the securities through the depository are described in MBS Guide, Ch. 12. The text of BD securities held in certificated form is set forth in Appendix IV-11, and a partial statement of the terms of BD and C BD securities held in uncertificated form is set forth in Appendix IV-17. This section describes additional requirements for securities backed by BD pools.

Buydown securities must be clearly differentiated from other types of Ginnie Mae MBS in all forward market and other transactions. Therefore, and in all communications relating to such transactions, Issuers must clearly disclose that the securities to be delivered are backed by a BD pool. Also, before delivery, Issuers must obtain for their records from each dealer or investor

to which the Issuer is selling securities, a confirmation statement clearly disclosing the nature of the pool underlying the securities to be delivered.

An Issuer must retain these confirmation statements as records subject to Ginnie Mae's right of inspection.

The buydown securities are distinguishable from other Ginnie Mae MBS by the suffix "BD" in each certificate number. Otherwise, the security is the same as the single family, level payment, non-buydown security.

PART 5. POOL ADMINISTRATION

Pool administration requirements for all pool types are described in MBS Guide, Ch. 14 through 20. This section describes additional requirements for the administration of BD pools.

Section A. Computation of Payment

Effective Date: 2009-10-01

Scheduled recovery of interest is determined as described in MBS Guide, Ch. 15, Part 4, except that scheduled interest due on the mortgage includes amounts scheduled to be collected from both the mortgagors and the providers of the buydown funds. Issuers are responsible for making advances and for losses that may arise as a result of shortfalls in funds from either of those sources

Section B. Monthly Reporting Requirements

Effective Date: 2009-10-01

Funds due from the providers of buydown funds are accounted for as if they were due from the mortgagor. These receipts must be aggregated with receipts from the mortgagor and reported in the RFS Issuer Monthly Report of Pool and Loan Data (Appendix VI-19).
