REPORTING POOL AND LOAN LEVEL DATA

VIA GMEP

Online Entry

Occurs through the RFS “activity” screens, such as the Loan Activity Screen and the Pool Activity Screen. Can also be used to view or edit data submitted in files.

File Upload

Issuers may upload data files less than “5 MB” in size through the web application screens (If exceeded, the user will get a message).

VIA SECURE FTP (SFTP)

Secure FTP Channel

Files submitted directly to Ginnie Mae via secure FTP channel. Typically done by IT Department; sub-servicer; service bureau. Requires coordination with Ginnie Mae/BNY to establish user account.

REPORTING “CORRECTIONS”

“Corrections” are submitted in the same format as initial reports – the P, L, S, and/or V records

RFS processes files automatically as received, and there is no special record type or transaction for “corrections”

“Last Record In” becomes the data of record for the report period

RFS only retains the most recently submitted data
