
APPENDIX III-7

FORM HUD 11706 - SCHEDULE OF POOLED MORTGAGES

Applicability: Ginnie Mae I MBS Program and Ginnie Mae II MBS Program. This form and these instructions should be used only by Issuers submitting pools in paper submission format. Issuers using GinnieNET to submit pools and loan packages must follow the instructions set forth in the GinnieNET Issuer Guide. HMBS pools may only be transmitted electronically through GinnieNET, using the file format described in Appendix III-28 for form HUD 11706H, Schedule of Pooled Participations and Mortgages.

Purpose: To provide a means of identifying and controlling the mortgages that collateralize the designated MBS pools or loan packages. Provides a certification from the document custodian that certain required mortgage documents are being held by the document custodian on behalf of Ginnie Mae.

Prepared in: Original and any copies needed for the Issuer and document custodian to maintain.

Distribution: Original will be delivered to the document custodian by the Issuer. The document custodian will examine the Schedule of Pooled Mortgages against the mortgage documents in its possession in accordance with the requirements of the Ginnie Mae MBS Guide. After the document custodian signs (certifies on the reverse side of the form HUD 11706), the document custodian or the Issuer will forward the original to Ginnie Mae's Pool Processing Agent (PPA).

For pools or loan packages submitted electronically through GinnieNET, the form HUD 11706 is automatically generated.

Completion Instructions: The circled numbers on the illustrated form correspond with the numbers listed below.

1. Interest rate of mortgages in the pool or loan package. Under the Ginnie Mae I program, except for manufactured home loans, all the mortgages must have the same interest rate. Under the Ginnie Mae II program, except for manufactured home loans, the mortgages must have a rate at least 50 basis points higher, but no more than 150 basis points higher, than the face rate of the securities (for pools and loan packages issued prior to July 1, 2003), or a rate at least 25 basis points higher but not more than 75 basis points higher than the face rate of securities (for pools and loan packages issued on or after July 1, 2003).
2. Term of mortgages. Enter in this block the years and months until the stated maturity of the pooled mortgage with the latest stated maturity.
3. **For Ginnie Mae I MH pools and Ginnie Mae II pools only:** If more than one interest rate is included, enter the "weighted average interest rate." This is calculated as follows:
 - a. Multiply the total unpaid principal balance (as of the issue date) for each group of loans at a particular interest rate by the face interest rate for that group;

-
-
- b. Sum the resulting products;
 - c. Divide that sum by the total of the unpaid balance for the pool or loan package. The resulting weighted average interest rate must be expressed in six significant figures (xx.xxxx percent).
 4. Indicate whether submission is in connection with initial certification, final certification, or recertification by the document custodian.
 5. Enter the number from the listing of pre-assigned pool numbers obtained from Ginnie Mae. If the pool is to be formed under Ginnie Mae I or is to be a custom pool under Ginnie Mae II, this number will refer to the Issuer's pool number. If the pooled mortgages are to become part of a multiple issuer pool under Ginnie Mae II, this number will refer to the Issuer's loan package number. To ensure that the underlying collateral conforms to the pool type selected, Issuers are required to first list the pool/loan package number, followed by the pool indicator and finally the pool type, i.e., "833477 C AT".

Note: A GPM or GEM pool will be identified by the numeral 9 as the first digit in the six-digit pool/loan package number. An ARM pool will be identified by the numeral 8 as the first digit.
 6. First day of the month of issue.
 7. Full legal name of Issuer.
 8. Check applicable boxes for type of loans collateralizing the pool.
 9. Indicate whether issuance is under the Ginnie Mae I or Ginnie Mae II program.
 10. **Adjustable Rate (ARM) pools and loan packages only.** Enter the security adjustment date, which is the date on which the interest rate for the security and the mortgage will change, or, in the case of a hybrid ARM, after the initial fixed rate period. The date must be either January 1, April 1, July 1 or October 1.
 11. Issuer ID number assigned by Ginnie Mae.
 12. Loan number of each mortgage assigned by Issuer for its records. If the mortgage is registered with MERS, set out the assigned mortgage identification number (MIN) immediately below the Issuer loan number.
 13. If MERS is the original mortgagee of record, insert the word "Yes"; otherwise, leave blank.
 14. Full legal name of borrower.
 15. Full street address of property, including zip code.
 16. Full FHA, VA, RD or PIH (§ 184) case number, including area identification and section of the National Housing Act. (For § 184 loans, record the number "184" in parenthesis in place of the section of the National Housing Act) (For GPM loans, show plan number following section of Act)
 17. **Ginnie Mae II only:** Make entries only if loans with different rates are included in the pool or loan package. Enter face interest rate for each mortgage.
-
-

-
-
18. **Adjustable Rate pools and loan packages only.** Enter the mortgage margin, which is the amount, in basis points, to be added to the published index in establishing mortgage interest rate adjustments. Each mortgage must have a margin at least 50 basis points, but not more than 150 basis points higher than the security margin for the pool (for pools and loan packages issued prior to July 1, 2003) or 25 basis points but not more than 75 basis points higher than the security margin (for pools and loan packages issued on or after July 1, 2003).
 19. The date the loan was originated, or note date.
 20. Date first payment is due on loan (month-day-year).
 21. The interest rate change date is that date which completes the initial rate lock period of a hybrid ARM, and is subsequently followed by an annual rate change. A three year hybrid ARM loan, for instance, would have a 36 month initial rate period, after which time the interest rate would change annually. Similarly, a five-year, seven-year or ten-year hybrid ARM loan would carry the same interest rate for the first sixty, seventy two or one hundred twenty months, after which times the interest rate would reset annually.
 22. Date last payment is due on loan (month-day-year).
 23. Monthly principal and interest constant of loan. (For GPM, GEM, and ARM loans, show constant applicable to the payment for the first month the loan is in the pool.)
 24. Original principal balance of mortgage.
 25. Unpaid balance of mortgage. (See Section 9-3(E) of the Ginnie Mae MBS Guide for a description of the manner in which the unpaid balance is calculated.)

Note: If a principal curtailment has been applied to the loan, the dollar amount of such curtailment must be shown either on the form itself or by separate attachment.
 26. **For manufactured home loans only.** For any loan that represents a combination manufactured home and lot loan, enter the letters "ML". For loans secured only by manufactured home units and for all loans other than MH loans, leave blank.
 27. Total number of FHA, VA, RD and/or PIH mortgages. Record PIH loans in the block marked "Other." If there is more than one page, only the grand totals need to be shown, either on the last page or on a separate "totals" page.
 28. Total unpaid balance of FHA, VA, RD and/or PIH mortgages (including cents). If there is more than one page, only the grand totals need to be shown, either on the last page or on a separate "totals" page.
 29. Total principal and interest amount for entire pool or loan package. If there is more than one page, only the grand total needs to be shown either on the last page or on a separate "totals" page.
 30. Credit Score of the borrower, numeric credit score resulting from credit evaluation model. If the borrower has insufficient trade lines with Equifax, Experian or TransUnion and a credit bureau score cannot be derived (non-traditional credit score) enter "100". If a credit score was not required for this loan enter "200".
 31. Social security number of the borrower.
-
-

-
-
32. Co-borrower 1- The full name of the co-borrower of the mortgage, if applicable.
33. Co-borrower 2- The full name of the co-borrower of the mortgage, if applicable.
34. Co-borrower 3- The full name of the co-borrower of the mortgage, if applicable.
35. **For Multifamily Use Only:**
- a. Lockout Term—The time in years the loan is locked out from prepayment, if applicable. It identifies to the Issuer the period of time that the loan cannot have accelerated payments of principal.
 - b. Lockout End Date—The date until which the mortgage is locked out from prepayment. The calculation for this is Final Endorsement Date + Lockout Term; this will be a future date (e.g., Final Endorsement Date of 01-20-2001 + Lockout term of 10 years = 01-20-2011). The Lockout End Date cannot be less than the Final Endorsement Date and cannot be more than the sum of the Final Endorsement Date and the Lockout Term.
 - c. Prepayment Premium Period—The time in years the loan is subject to a prepayment premium (penalty), if applicable. The Prepayment Premium Period is the period of time when prepayments may be made subject to a percentage prepayment penalty, but only after the expiration of the stated lockout period (i.e., if the Lockout Term is 10 years with a prepayment premium period of 5 years and a Final Endorsement Date of 01-20-2001, the Prepayment Premium Period would be 1-20-2011 through 1-20-2016. The prepayment period cannot exceed 01-20-2016).
 - d. Prepayment End Date—The date the mortgage becomes open to prepayment with no premium due. The calculation for this is the expiration of the sum of the Lockout Term Date and the Prepayment Premium Period (e.g., 01-20-2011, which is 10 years after the Final Endorsement Date, + 5 years = 01-20-2016). The Prepayment End Date cannot be less than the Final Endorsement Date and it cannot be more than the of the Final Endorsement Date and the Prepayment Premium Period.
36. Loan type code - A code that identifies the specific type of loan.
1. FHA Single Family
 2. VA Guaranteed
 3. Single Family RD
 4. VA Vendee
